Pleasantville Village Rehabilitation of Existing Tennis Courts WORK

Under this item the Contractor shall furnish all labor, materials and equipment necessary or required to renovate existing tennis courts in accordance with the Contract Documents. Work shall include but not be limited to the following:

BASE:

1. All cuts and cracks greater than 1/4" wide shall be cleaned and filled with acrylic patch mix. Material specifications to be submitted with bid.
2. Brush and scrape approximately 180 of structural cracks to remove, as possible, debris and loose material. Acrylic patch crack repair system shall be intended for long term repairs to asphalt and shall be installed per manufacturer's instructions. The acrylic patch crack repair system shall utilize a special fabric that covers the crack and expands as the cracks widen, especially during the cold winter months.
3. Birdbaths shall be marked by flooding court, and then filled with trowel patch in 1/4" lifts. Most depressions will be reduced but some may remain due to overall slope irregularities.

ACRYLIC RESURFACER and COLOR FINISH:

1. Entire surface shall be pressure washed to remove as much loose paint, dirt and deteriorated asphalt as possible. Any peeled, chipped or bubbled areas will be hand scraped and tacked with bonding acrylic. **Note:** The Village shall supply water source adjacent to courts for pressure washing.
2. One (1) coat of acrylic resurfacer will be applied to correct minor surface irregularities and to seal existing surface.
3. The entire surface will be coated with two (2) coats of acrylic resurfacer to fill pavement voids, correct minor surface irregularities and to seal existing surface.
4. Two (2) coats of a colored, acrylic base emulsion containing inorganic fillers shall be applied with squeegees to establish a color base.
5. None of the color finish coats shall be applied to damp surface, when rain is imminent or temperature is below 55 degrees.

COLOR SELECTION -

Color Court Interior (inside playing lines): Forest Green.

Color Court Exterior (outside playing lines): Forest Green.

PLAYING LINES: 1 COAT OF SEAL-A-LINE; 2 COATS OF LINE PAINT:

1. **Tennis lines:** Base lines shall be not more than 4" wide and playing lines not more than 2" wide, accurately located and marked in accordance with the rules of the United States Lawn Tennis Association. Lines shall be treated with Nova Seal-a-Line or equivalent and two (2) coats of Novatex or equivalent white, water base paint especially formulated for striping tennis courts.

INSURANCE:

1. Contractor shall provide reasonable and adequate insurance and include the cost thereof in the contract sum.

GUARANTEE:

1. Contractor guarantees its workmanship for a period of one year from date of completion. Color systems are essentially a cosmetic repair and Contractor bears no responsibility for sub-surface conditions or future structural issues. Armor system prevents immediate return of cracks, however, additional cracks may form and existing cracks may lengthen with subsequent freeze/thaw cycle.
2. Multiple applications of acrylic increase possibility of acrylic bubbling, especially in presence of significant ground water. This occurs when subsurface moisture is vaporized by solar heat and cannot escape rapidly enough thru the acrylic coating.
3. Oval cannot be responsible for bubbling and moisture permeating surface of court after new acrylic system is applied. There are a multitude of variables constantly changing and evolving in the life span of a court and the movement of subsurface water.

CONDITIONS:

1. The Village shall ensure that landscape sprinklers do not reach court during scheduled repairs. Repair of damage caused by sprinkler system operation will advance completion date and be an additional charge based on time and material.
2. NYS Prevailing Wage Rate Schedule for Painter will apply to all costs for labor within this contract.
3. Court color(s) must be indicated on signed contract.

COMPLETION DATE:

1. Work to begin within two (2) weeks of contract award and completion projected within ten days. Except no work will begin before May 15 or after October 1.

COST AND PAYMENT SCHEDULE:

Cost of all work as described above: \$ Twenty-nine thousand five hundred dollars and
(#29,500.00) zero cents.
