

WEBVTT

1

00:00:01.650 --> 00:00:13.230

Peter Scherer: All right, welcome to the session for Voyager pleasantville Board of Trustees today is Monday April 26 weren't work session will go into regular session at 8pm So the first item on our agenda there were these.

2

00:00:14.250 --> 00:00:19.710

Peter Scherer: two items from bmj one site analysis study for the former bank of New York.

3

00:00:20.850 --> 00:00:25.290

Peter Scherer: Which we've talked about and which we have on for resolution tonight.

4

00:00:26.430 --> 00:00:27.990

Peter Scherer: And then the other is the FAA ours.

5

00:00:29.010 --> 00:00:31.320

Peter Scherer: donating proposed, which is.

6

00:00:32.820 --> 00:00:42.180

Peter Scherer: By only as you read in the material by tightening up the restrictions on larger lots.

7

00:00:43.680 --> 00:00:47.010

Peter Scherer: modestly for the discussion we had when we last talked so.

8

00:00:48.300 --> 00:01:00.150

Peter Scherer: My take on, it is both of these things look fine and we should we should roll, we have a public hearings scheduled for the FAA rezoning proposal in May, what Eric may 24.

9

00:01:01.740 --> 00:01:11.550

Peter Scherer: it's gotten referred to the planning Commission they'll take a look at it this week and county planning, did you say already responded, that was a local issue so.

10

00:01:12.930 --> 00:01:15.120

Peter Scherer: I mean, as we've discussed when we were with Susan.

11

00:01:17.070 --> 00:01:26.460

Peter Scherer: it's it's a new a new set of zoning regulations that aren't going to have much of an effect on lots of people fair to say, Robert.

12

00:01:29.280 --> 00:01:42.510

robert: Correct correct I think it's it's we created it to where the existing Homeowners would be not affected greatly it mostly about ensuring that new houses are not overbuilt.

13

00:01:43.320 --> 00:01:44.100

Peter Scherer: yeah and then.

14

00:01:45.150 --> 00:01:47.670

Peter Scherer: Also in embedded in this is the.

15

00:01:49.470 --> 00:01:57.720

Peter Scherer: Changes changing the way the average me and grade is calculated, so that the average mean grade is determined from the existing site.

16

00:01:58.740 --> 00:01:59.310

Peter Scherer: To try to.

17

00:02:01.800 --> 00:02:07.860

Peter Scherer: move the incident mound up earth in ways that benefit the block of the House.

18

00:02:08.760 --> 00:02:20.490

robert: Right, we did it to where be the most restrictive of either the existing or propose and that gives a little bit of flexibility on our pipe because it could happen, where maybe they take dirt away.

19

00:02:20.790 --> 00:02:21.240

robert: And kind of.

20

00:02:21.390 --> 00:02:24.210

robert: think it so we gave a little flexibility, but to be most restrictive.

21

00:02:24.540 --> 00:02:24.870

yeah.

22

00:02:26.820 --> 00:02:29.640

Peter Scherer: So anybody have any comment and either of those items.

23

00:02:32.100 --> 00:02:34.260

Nicole Asquith: i'm fine with moving ahead with both of those.

24

00:02:35.160 --> 00:02:35.880

David Vinjamuri: me too.

25

00:02:38.340 --> 00:02:44.550

Peter Scherer: All right, there being no disagreement we're way ahead of schedule here.

26

00:02:44.700 --> 00:02:45.480

Eric Morrissey: to update.

27

00:02:47.700 --> 00:02:51.570

Peter Scherer: update on the selection, with a pool consultant, and next steps.

28

00:02:51.990 --> 00:02:54.750

Eric Morrissey: Sure, so I was actually going to have.

29

00:02:55.920 --> 00:03:03.390

Eric Morrissey: Steve mucus login along with Troy and Jim so they they may be joining us a little while.

30

00:03:04.800 --> 00:03:15.240

Peter Scherer: So we jumped it is crystal with us there, yes, should we jump in and to update on summer camp well wait for those guys.

31

00:03:15.570 --> 00:03:23.040

Eric Morrissey: Well yeah and Michael porter Mike was going to login on that we want to jump to Memorial Plaza for the plane sale that.

32

00:03:23.520 --> 00:03:24.510

Peter Scherer: A OK.

33

00:03:25.740 --> 00:03:26.190

Eric Morrissey: OK.

34

00:03:27.300 --> 00:03:39.960

Eric Morrissey: So may 8 is when the annual plant sale is scheduled for the farmers market if you go to the agenda item, you can see a an outline from.

35

00:03:40.740 --> 00:03:40.920

My.

36

00:03:43.740 --> 00:03:54.840

Eric Morrissey: So the, the situation is typically when the garden club does their annual plant sale Steve bates will shrink the footprint of the farmers market.

37

00:03:57.270 --> 00:03:59.550

Eric Morrissey: And if you scroll down.

38

00:04:03.090 --> 00:04:03.900

yep okay.

39

00:04:05.160 --> 00:04:12.450

Eric Morrissey: he's able to shrink the farmers market and accommodate in the typical farmer market footprint the the plant sale.

40

00:04:13.410 --> 00:04:27.090

Eric Morrissey: Because of cool good regulations and restrictions, he can't drink the market itself he can't frank, the market footprint so they're going to be policing the sale in section a that's highlighted here.

41

00:04:29.310 --> 00:04:30.540

Peter Scherer: Normally it's sort of.

42

00:04:30.540 --> 00:04:32.910

Peter Scherer: focused on vivo and over here.

43

00:04:33.150 --> 00:04:38.490

Eric Morrissey: Right right, so what what see basis is not his.

44

00:04:40.350 --> 00:04:48.210

Eric Morrissey: his suggestion this really outside the purview of the farmers market operations as a whole, but what he suggests is.

45

00:04:49.380 --> 00:04:59.460

Eric Morrissey: Having no parking so that would be that Friday night, so there are no cars parked in this section C one C two C three part of.

46

00:05:00.720 --> 00:05:09.450

Eric Morrissey: What he's been noticing is there's anywhere from 1114 cars parked overnight in the parking lot that.

47

00:05:10.590 --> 00:05:18.810

Eric Morrissey: That eat up valuable parking spaces, those are presumably folks who actually live live in the downtown area parking overnight.

48

00:05:20.190 --> 00:05:29.310

Eric Morrissey: But he's saying, due to the increase of traffic because of the plant, sale and the fact that the folks who are organizing plant sale will be.

49

00:05:30.060 --> 00:05:48.780

Eric Morrissey: kind of coming to and from the least in the initial planning or setup phases from you know the parking lot to this section area, a that it would be safer for all involved if the whole Plaza not just the northern portion of the Plaza was closed off.

50

00:05:50.160 --> 00:05:52.680

Eric Morrissey: For the market just on maybe.

51

00:05:53.850 --> 00:06:03.990

Eric Morrissey: So what the board, would the action the board would take would be to permit the village to close down and, if they so the necessary to to tell.

52

00:06:06.570 --> 00:06:06.840

Peter Scherer: So.

53

00:06:08.760 --> 00:06:13.710

Peter Scherer: The permit area which is normally the prime parking spot for the.

54

00:06:15.000 --> 00:06:18.630

Peter Scherer: Farm market would be no parking, that is, people going.

55

00:06:19.710 --> 00:06:23.940

Peter Scherer: Is the point simply to leave the spaces available for the shoppers the next morning.

56

00:06:24.120 --> 00:06:28.440

Eric Morrissey: Yes, that's right, so it would reopen for the market hours.

57

00:06:28.680 --> 00:06:36.510

Eric Morrissey: It would just be closed on Friday night into early Saturday morning to ensure no overnight parking in that section of the law.

58

00:06:38.310 --> 00:06:38.850

Nicole Asquith: yeah.

59

00:06:38.940 --> 00:06:42.870

Nicole Asquith: i've been there when they set up the plant sale, and it is quite a.

60

00:06:43.980 --> 00:06:49.170

Nicole Asquith: Quite a scene, you know with a lot of traffic, because you know it's individuals, bringing the plants and and.

61

00:06:50.190 --> 00:06:53.160

Nicole Asquith: A lot of people on hand so make sense to me.

62

00:06:54.330 --> 00:07:00.750

Peter Scherer: yeah I mean the other issue and something to contemplate for another day is.

63

00:07:02.850 --> 00:07:08.970

Peter Scherer: we've always had a bunch of cars that that park and memorial Plaza sometimes all weekend.

64

00:07:09.300 --> 00:07:14.910

Peter Scherer: Right, and that is, you know some folks who live downtown and don't have.

65

00:07:15.300 --> 00:07:24.660

Peter Scherer: Like in the parking and as soon as soon as the Plaza is free for them, they leave the car there over the weekend some times folks are headed to the city and leave the car.

66

00:07:26.610 --> 00:07:27.060

Peter Scherer: and

67

00:07:28.170 --> 00:07:34.890

Peter Scherer: He it's it's grown to the point that a decent percentage of the available space.

68

00:07:37.830 --> 00:07:38.340

Nicole Asquith: Well, when we.

69

00:07:38.370 --> 00:07:38.670

get there.

70

00:07:39.840 --> 00:07:51.510

Nicole Asquith: Oh sorry when we did that final analysis of the downtown parking the feedback that we got is that what we really need more of this short term parking right and then of course coven you know through everything up here but.

71

00:07:52.050 --> 00:07:54.390

Peter Scherer: Ultimately, it seems like during the.

72

00:07:55.890 --> 00:08:09.420

Peter Scherer: during the week we've got plenty of spaces available i'm like pretty coven it's just this weekend piece where that those areas, he wants you to see three or that or the free parking areas for for market people and.

73

00:08:09.930 --> 00:08:16.620

Peter Scherer: And if you have 10 or 12 or 15 cars already there before the market starts it it's sort of too bad so.

74

00:08:17.520 --> 00:08:28.590

Peter Scherer: Given the fact that there are places those cars could Park, like, for example, the lane lot, although it's reduced because of that space we've made available for 70 more there's still plenty spaces there so.

75

00:08:29.310 --> 00:08:40.590

Peter Scherer: It might be something to think about to to enact some sort of real going forward The other thing again, not a discussion tonight is whether.

76

00:08:41.670 --> 00:08:55.500

Peter Scherer: For some foreseeable future, the demand for commuter parking will remain low or lower, and perhaps we ought to think about some means by which cars with a permit.

77

00:08:57.900 --> 00:09:11.250

Peter Scherer: Obviously, can park in the computer side and cars without a permit perhaps at certain times could pay a display or something like that that obviously would require new infrastructure and probably not worth doing at the moment, but something about.

78

00:09:12.900 --> 00:09:13.200

yeah.

79

00:09:15.090 --> 00:09:19.020

Eric Morrissey: Right, so we have a resolution on the board agenda.

80

00:09:20.610 --> 00:09:21.300

Eric Morrissey: Tina Sir.

81

00:09:22.680 --> 00:09:23.340

Peter Scherer: Okay.

82

00:09:23.820 --> 00:09:32.040

Noreen Regan: Right have the parking as a 5am or do you want it to start at midnight or 1am just so people.

83

00:09:34.590 --> 00:09:36.540

Eric Morrissey: probably best to make a midnight.

84

00:09:42.900 --> 00:09:43.410

Peter Scherer: alright.

85

00:09:43.830 --> 00:09:44.640

Eric Morrissey: So we have the.

86

00:09:45.060 --> 00:09:47.700

Peter Scherer: Little Troy Jim and Steve on.

87

00:09:48.990 --> 00:09:49.380

Peter Scherer: and

88

00:09:50.460 --> 00:09:56.160

Peter Scherer: Mike is on I see and Chris mats should we vector back to the pool, yes, sir.

89

00:09:57.000 --> 00:10:05.730

Eric Morrissey: So kind of TEE this up here so for the past few months Troy and Jim who represent the pool Task Force.

90

00:10:07.170 --> 00:10:13.470

Eric Morrissey: norene myself and the REC department and Jeff has been involved with with this as well.

91

00:10:14.370 --> 00:10:14.940

David Vinjamuri: With a.

92

00:10:15.180 --> 00:10:25.110

Eric Morrissey: series of consultants, as we endeavor to to tackle the tool rehabilitation project and after a series of.

93

00:10:25.890 --> 00:10:38.310

Eric Morrissey: Meetings zoom meetings, the group decided collectively to move forward with mucus engineering out of long island, so the owner of the principle of the firm has joined us tonight, so the board.

94

00:10:39.480 --> 00:10:41.250

Eric Morrissey: Can virtually you meet him.

95

00:10:42.360 --> 00:10:42.960

Eric Morrissey: And then.

96

00:10:44.040 --> 00:10:53.250

Eric Morrissey: we'll give you a chance to do that and then kind of talk through what our next steps, what we envisioned the next steps to be in in the path forward so.

97

00:10:54.630 --> 00:11:01.470

Eric Morrissey: Steve if you want to say a few words introduce yourself speak about the firm and your experience I think that'll be helpful to the board.

98

00:11:01.590 --> 00:11:11.790

Steve Rimkunas: Sure, so i'm Steve from coolness and i've been designing commercial swimming pools, probably for the last 22 years, I believe.

99

00:11:13.950 --> 00:11:17.400

Steve Rimkunas: You know, commercial, meaning that you need your department health permit.

100

00:11:19.320 --> 00:11:29.970

Steve Rimkunas: My i'm located on long island as as Eric said and I cover a range from all of long island New York City westchester and occasionally I go up into rockland county.

101

00:11:31.980 --> 00:11:33.210

Steve Rimkunas: By company on its own.

102

00:11:34.560 --> 00:11:45.090

Steve Rimkunas: has been it was established in 2015 so i've been out of my own, for the last six years spent the other 17 years or so, working at.

103

00:11:45.600 --> 00:11:57.780

Steve Rimkunas: A civil engineering firm, that is where I learned all the pool design and we had a mutual split in 2015 they just said, we don't want to do pools anymore and you're doing it, so why don't you just do it.

104

00:11:59.010 --> 00:12:01.680

Steve Rimkunas: And that's so that's how I got started into that.

105

00:12:03.690 --> 00:12:04.050

Steve Rimkunas: You know.

106

00:12:05.190 --> 00:12:12.030

Steve Rimkunas: i've learned on municipal pools municipal bulls are usually much larger you know they're not a hotel pool.

107

00:12:13.110 --> 00:12:21.120

Steve Rimkunas: You know, larger like competitive pools, and things like that, and they require different touch than just doing a hotel pool with skimmers you know when we have the full over.

108

00:12:21.660 --> 00:12:34.650

Steve Rimkunas: overflow system so i'm very comfortable working on a project like this and actually this one is you know pretty exciting I like it, I like where it's located and I like a lot of the ideas i've been hearing so i'm ready to go.

109

00:12:36.510 --> 00:12:48.000

Eric Morrissey: Thank you Sophie, then you know, through this process we've shared with Steve the results of the task forces full survey the previous reports, done on the condition of the pool.

110

00:12:49.320 --> 00:13:00.360

Eric Morrissey: he's taken a site visit as well, where he met with Jeff condom the village engineering superintendent of public works, so these these as on boarded as as possibly can be.

111

00:13:01.770 --> 00:13:02.790

Eric Morrissey: And at this point.

112

00:13:04.230 --> 00:13:12.150

Eric Morrissey: The Board is inclined to take the recommendations move forward with Steve what we envisioned as forming kind of an internal working group.

113

00:13:13.410 --> 00:13:25.770

Eric Morrissey: That would consist of village staff members of the pool Task Force, along with two board members who can sit in on these meetings when available.

114

00:13:26.730 --> 00:13:42.720

Eric Morrissey: When possible and the idea would be to develop some lay out some potential layouts and get through an initial design that we can bring to the we can bring to the public and start actually estimating some potential costs.

115

00:13:43.500 --> 00:13:54.720

Eric Morrissey: Because a big part of this conversation is going to be understanding how much is it going to cost and and obviously we'll be able to generate more revenue through increase.

116

00:13:56.400 --> 00:14:05.310

Eric Morrissey: pool pool pharmacies, but obviously the survey showed us there is there's probably a cat to that appetite out there, so.

117

00:14:06.060 --> 00:14:19.140

Eric Morrissey: There may be some portion of the debt service on the pool that will have to be subsidized by the village tax base and understanding that early on in the design process and communicating that to the public, we understand will be very important, so.

118

00:14:20.220 --> 00:14:34.890

Eric Morrissey: that's that's our initial game plan that we can obviously feel free to we're open to getting some feedback and input from board but that's how we envision it moving forward at this point Troy and Jim any any comments to that.

119

00:14:38.700 --> 00:14:39.750

Eric Morrissey: Not to put you on the spot.

120

00:14:42.330 --> 00:14:57.990

Troy Tassier: I think that's that's a good summary you know I think what we're excited about is is moving forward and seeing what what Steve can can design for us and getting that out to the public, and hopefully getting some widespread support from from the village residents.

121

00:14:59.130 --> 00:15:05.550

Jim Kennedy: yeah I just I just add that we looked at a range of options here and and we're very comfortable with Steve.

122

00:15:06.690 --> 00:15:13.320

Jim Kennedy: You know, we want to preserve the asset we want to give the we want to give the Community, a feeling of something new that carries them into the future.

123

00:15:13.950 --> 00:15:26.340

Jim Kennedy: but also realistic about the constraints of costs and and and what the what the the actual site will allow us to do so steve's on board with that that we're gonna work through this have a bunch of.

124

00:15:27.510 --> 00:15:30.420

Jim Kennedy: renderings that the public can look at that look like the actual thing.

125

00:15:32.970 --> 00:15:34.020

Jim Kennedy: very realistic.

126

00:15:35.310 --> 00:15:36.180

Peter Scherer: In which case.

127

00:15:37.110 --> 00:15:38.700

Jim Kennedy: You can almost swimming in it so real.

128

00:15:39.870 --> 00:15:48.120

Jim Kennedy: So you know we get those out, maybe even the summer start to start to build enthusiasm for this and and and go from there, so we're really excited.

129

00:15:49.590 --> 00:16:01.740

Peter Scherer: Oh, is this, I think the entire board knows you want to have two guys working on this patrol gym for the right guy so and that has been proven in spades as as it has been.

130

00:16:02.640 --> 00:16:14.040

Peter Scherer: In jim's case for many years, so Steve that the in the course of all these discussions leading up to this there had been the comment that.

131

00:16:15.720 --> 00:16:32.340

Peter Scherer: Many new pools are are now dispensing with a separate kiddie pool and having a kitty area in a bigger pool, but when the survey was done, it was crystal clear that the Community wanted a separate table.

132

00:16:33.960 --> 00:16:36.150

Peter Scherer: What do you, what do you see out there.

133

00:16:37.110 --> 00:16:39.870

Steve Rimkunas: i'm actually a very strong believer in two separate pools.

134

00:16:41.370 --> 00:16:42.780

Steve Rimkunas: For a number of reasons.

135

00:16:43.170 --> 00:16:44.490

Peter Scherer: We have the right survey for you.

136

00:16:44.640 --> 00:16:45.120

Nicole Asquith: Yes.

137

00:16:45.450 --> 00:16:46.410

Steve Rimkunas: That worked out very well.

138

00:16:48.030 --> 00:16:58.740

Steve Rimkunas: um you know what what what can be a little misleading is this I brought this up before that the zero entry coming into a large municipal pool.

139

00:16:59.850 --> 00:17:05.400

Steve Rimkunas: You know, we can't go beyond a standard Ada grade rate right one on 12.

140

00:17:06.000 --> 00:17:15.300

Steve Rimkunas: And when you map that out by the time you get to three feet, which is the minimum depth of what's technically a swimming pool you're 36 feet into the pool.

141

00:17:16.020 --> 00:17:30.690

Steve Rimkunas: Right, so you actually remove by by creating one hole you create a very, very large wading pool which decreases the enjoyment of the adults part of it, you know, like with full grown people.

142

00:17:31.530 --> 00:17:47.220

Steve Rimkunas: so to speak, I guess it's about um that's one reason why you spend a lot of money to build this very large wading pool that's not going to be used people want to float around and it's hard as an adult at three feet when you're you know 36 feet and it's.

143

00:17:48.360 --> 00:17:52.560

Steve Rimkunas: You know that can be up to a 30 year pool or close to coming up on half of your pool.

144

00:17:54.090 --> 00:18:00.750

Steve Rimkunas: So that's one reason why I like to separate it The other reason is, if you follow the code specifically if there's any kind of.

145

00:18:01.830 --> 00:18:05.940

Steve Rimkunas: You know accident in the pool you're supposed to shut the ball down.

146

00:18:06.360 --> 00:18:06.630

Nicole Asquith: So.

147

00:18:07.410 --> 00:18:20.070

Steve Rimkunas: You know you have a higher risk in the waiting pool area for these things to happen, do you want to shut down the entire facility or do you just want to shut down, you know this smaller pool and it's also faster and has a higher turnover rate, you can clean it up faster over there.

148

00:18:21.420 --> 00:18:23.100

Peter Scherer: has ever happened in our kiddie pool but.

149

00:18:28.290 --> 00:18:29.790

Steve Rimkunas: Those are my top two reasons why.

150

00:18:30.210 --> 00:18:34.560

Peter Scherer: But so it does it does that that that.

151

00:18:35.760 --> 00:18:40.860

Peter Scherer: I assume, for the to the point you just made required.

152

00:18:41.910 --> 00:18:46.320

Peter Scherer: Separate filter separate system right, yes, the two pools run independent.

153

00:18:47.160 --> 00:18:50.940

Steve Rimkunas: Yes, each body of water needs its own filtration system you can't mix the water.

154

00:18:51.270 --> 00:19:02.490

Peter Scherer: And then the other point that I guess has been apparent to us for approximately 50 years it's a bad idea to have a pump house below grade, are you also have that view.

155

00:19:03.240 --> 00:19:14.400

Steve Rimkunas: Well, I express this as well at the pumps than the whole system works best when the pump is in what we call flooded suction which means it's below the elevation top elevation of the water.

156

00:19:14.850 --> 00:19:15.930

Steve Rimkunas: doesn't have to be all at the.

157

00:19:15.930 --> 00:19:16.470

Peter Scherer: bottom.

158

00:19:17.040 --> 00:19:19.320

Steve Rimkunas: It just needs to be below the surface.

159

00:19:21.090 --> 00:19:22.500

Steve Rimkunas: And you know i've.

160

00:19:23.520 --> 00:19:38.790

Steve Rimkunas: we're going to be doing some kind of new filter building enclosure whether it's an extension of the building or, possibly, a new building we're going to work on it to make sure that it's you know somewhat whatever flood proof of that we can give it.

161

00:19:40.020 --> 00:19:44.310

Peter Scherer: I also recommend the pumps actually want to be they.

162

00:19:44.430 --> 00:19:46.080

Peter Scherer: want to be an artist some.

163

00:19:46.800 --> 00:19:53.190

Steve Rimkunas: They don't want to be submerged yeah you know they just want to be below the water elevation it's it makes everything better.

164

00:19:53.610 --> 00:20:02.610

Steve Rimkunas: What ends up happening there's two types of pumps is flooded suction, which is what i'm pushing you for or self priming pumps and when you have a self priming pump.

165

00:20:03.420 --> 00:20:16.920

Steve Rimkunas: The horsepower is higher, which means higher operating costs, just to run it and it's also they're very problematic, you know oftentimes they they you're fighting it more than you want to so having a down is the best thing we can do.

166

00:20:18.240 --> 00:20:19.320

Peter Scherer: What do we have now.

167

00:20:20.220 --> 00:20:25.140

Steve Rimkunas: You have flooded section, you have what I would like, yes okay.

168

00:20:25.980 --> 00:20:36.720

Steve Rimkunas: But you know there's other things we can build the building correctly, so that you have a basement that you know, maybe you have to walk up a few steps to get into before you walk into the filter room This way we can keep the water out.

169

00:20:37.200 --> 00:20:54.090

Steve Rimkunas: or something I do your build pools on there's a lot of country clubs here on the North shore and also on the South shore of long island and we very often just put flanges and during the offseason you pull the pump up above flood elevation.

170

00:20:55.050 --> 00:20:57.540

Steve Rimkunas: it's a little bit it's a maintenance issue with some work.

171

00:20:57.570 --> 00:20:59.010

Steve Rimkunas: involved, but it's a.

172

00:20:59.250 --> 00:21:00.660

Steve Rimkunas: You know you're protecting your investment.

173

00:21:01.890 --> 00:21:14.130

Steve Rimkunas: But all the electronics and everything else that's going to run the pool definitely be up above the flood, I just want to try and see if I can get the pumps down, and as long as they're protected and everybody's comfortable with it i'd like to go that way okay.

174

00:21:15.270 --> 00:21:18.810

Peter Scherer: Well, I defer your wise judgment.

175

00:21:20.370 --> 00:21:33.390

Nicole Asquith: Thank you, everybody I wanted it's nice to meet you virtually Steve and Jim and Troy thanks for putting the time and effort in I feel like we've moved from what felt a little cookie cutter and not very pleasant phil.

176

00:21:34.500 --> 00:21:40.110

Nicole Asquith: To do something that's going to be much more suited to our village so so thank you very much.

177

00:21:41.100 --> 00:21:55.320

Jim Kennedy: Well, we certainly appreciate the opportunity to work on this and we couldn't be happier with the cooperation that we've gotten from Eric and nori and they've been super and we worked as a team, the hallway and it's been really fun and I, and I hope and I expected will continue to be.

178

00:21:55.980 --> 00:21:56.580

that's great.

179

00:21:58.650 --> 00:21:59.790

Peter Scherer: Alright, any further.

180

00:21:59.940 --> 00:22:00.690

thoughts.

181

00:22:02.490 --> 00:22:10.500

Eric Morrissey: The question also becomes do we have volunteers from the board about the one or two Members who would want to be part of this internal working group.

182

00:22:12.300 --> 00:22:18.180

Eric Morrissey: The we will endeavor to meet you know wait afternoons evenings to accommodate schedules.

183

00:22:19.500 --> 00:22:30.420

Nicole Asquith: i'd be willing to do that, I mean if there's two others who are more eager than me that's fine too, but if you're if you need volunteers i'm game.

184

00:22:32.100 --> 00:22:37.920

Peter Scherer: feel free to say you know, Michael but you're also parks and REC advisory board does that feel like a.

185

00:22:38.430 --> 00:22:44.940

Michael Peppard: yeah that makes sense, it makes sense i'll be thinking about those issues, most of the time, anyway, I think so okay.

186

00:22:46.380 --> 00:22:47.460

Peter Scherer: sounds like we've got to.

187

00:22:49.500 --> 00:22:49.950

Nicole Asquith: perfect.

188

00:22:51.330 --> 00:22:53.580

Peter Scherer: Mike Chris anything to add to that any of this.

189

00:22:56.700 --> 00:23:05.100

mnewman: No, but I am happy to hear about the zero entry and not doing one full, I think the survey clearly states that and.

190

00:23:05.670 --> 00:23:19.380

mnewman: The biggest thing that the people come in here and tell us, as compared to mount pleasant they love it it's a separate kitty area so taking that away I think service i'm happy to see we're going that direction right.

191

00:23:23.010 --> 00:23:23.460

Peter Scherer: All right.

192

00:23:24.420 --> 00:23:26.940

Peter Scherer: Right, it was Thank you pleased to meet you Steve.

193

00:23:28.020 --> 00:23:32.310

Peter Scherer: look forward to meeting you at some point when we no longer need to be virtual.

194

00:23:32.700 --> 00:23:33.300

yep great.

195

00:23:34.830 --> 00:23:35.640

Eric Morrissey: Thank you, everybody.

196

00:23:35.970 --> 00:23:36.960

Peter Scherer: Thank you yep.

197

00:23:37.020 --> 00:23:37.380

Steve Rimkunas: Thank you.

198

00:23:38.910 --> 00:23:39.690

Peter Scherer: Thanks Ray thanks.

199

00:23:43.380 --> 00:23:43.860

Peter Scherer: All right.

200

00:23:45.030 --> 00:23:46.740

Peter Scherer: update on summer camp.

201

00:23:48.540 --> 00:23:57.300

Eric Morrissey: Right so i'll kick it over to Mike and Chris about where we are at this point in summer camp planning a lot of moving pieces here.

202

00:23:58.500 --> 00:24:10.500

mnewman: yeah so we did the lottery, and we made everyone that was in the lottery eligible for what they wanted they had the opportunity to go and register and pay.

203

00:24:11.970 --> 00:24:31.290

mnewman: as of right now we have about well, we have 109 total campers for session one Thank you and 105 total campers for session two and that's 71 campers right now that are doing both.

204

00:24:33.690 --> 00:24:35.490

mnewman: You know, so this just ended.

205

00:24:35.490 --> 00:24:53.850

mnewman: For today for people to you know pay so we put this together, Chris put this together today and we're going to dive into the specific groups and start kind of forming our groups, and with that we should be able to.

206

00:24:55.050 --> 00:25:03.660

mnewman: If there's anyone still out there that's looking to get into camp, we clearly have some space within the groups we're going to kind of form.

207

00:25:04.530 --> 00:25:16.260

mnewman: Because we don't want to start creating new groups and then you know with staff and trying to make sure we have enough for if we have too much just trying to find that sweet spot with staff.

208

00:25:16.860 --> 00:25:27.810

mnewman: So the plan would be to double check our groups and what we can form and create a program in Community pass for anyone else that's still interested in camp.

209

00:25:28.620 --> 00:25:35.820

mnewman: It would basically be kind of like a lottery system but we'll call it, maybe waiting room and they're interested, they can sign up for that.

210

00:25:36.120 --> 00:25:47.880

mnewman: And then, when we see that there's somebody in there, we can see what Gray they're going into what what they're looking for full session or first or second session and we move them into.

211

00:25:49.110 --> 00:25:50.490

mnewman: spots that have space.

212

00:25:52.200 --> 00:25:56.940

mnewman: We are narrowed it down to two sites, based on the numbers.

213

00:25:58.170 --> 00:26:00.810

mnewman: So we're going to use parkway and Nana hagen.

214

00:26:02.460 --> 00:26:08.160

mnewman: You know 109 and five, we could use one location, but.

215

00:26:09.570 --> 00:26:19.470

mnewman: The using the pool is a must, and Nana hagen is just not ideal for every day camp.

216

00:26:19.890 --> 00:26:20.280

mm hmm.

217

00:26:23.280 --> 00:26:29.430

chrismantz: we're going to more of a traditional day camp setting where they're going to be the groups of campers are going to be rotating.

218

00:26:30.450 --> 00:26:40.110

chrismantz: Between arts and crafts and sports and things that the pool facility and surrounding area does not allow us to do that in an effective way.

219

00:26:41.490 --> 00:27:00.930

chrismantz: While still allowing the public to access the walkways and and things like that we would have to use all of the grassy areas near the parking areas and up by the pond and it would it would be pretty tricky so, hence the two locations that still need to be in play.

220

00:27:02.460 --> 00:27:04.800

Nicole Asquith: You should take the campers over to see the beaver lodge.

221

00:27:05.040 --> 00:27:08.310

chrismantz: At some bad we we actually have a nature person that.

222

00:27:09.060 --> 00:27:11.040

chrismantz: We are super excited about.

223

00:27:11.940 --> 00:27:12.570

Nicole Asquith: that's good.

224

00:27:12.690 --> 00:27:17.010

chrismantz: he's he's going to one of our core specialists he's from the bronx zoo.

225

00:27:17.400 --> 00:27:18.570

chrismantz: He started.

226

00:27:19.500 --> 00:27:24.300

chrismantz: He was one of the lead people that started the tour guide program at the bronx zoo.

227

00:27:25.740 --> 00:27:33.480

chrismantz: And he's he's phenomenal i'm super excited to have him come in and do some things he's going to be based, out of Nana hagen.

228

00:27:35.070 --> 00:27:37.470

chrismantz: One of the things that we talked about during the interview.

229

00:27:38.640 --> 00:27:39.270

chrismantz: He says.

230

00:27:39.390 --> 00:27:44.670

chrismantz: A biologist that specializes in wetlands ecology, so I couldn't be.

231

00:27:46.140 --> 00:27:46.650

Nicole Asquith: cool.

232

00:27:47.880 --> 00:27:51.570

mnewman: How that fell in our lap but i'm pretty excited about that guy.

233

00:27:51.870 --> 00:27:54.360

Peter Scherer: A perfect way back also wetlands.

234

00:27:54.360 --> 00:27:54.840

ecology.

235

00:27:57.930 --> 00:27:58.140

chrismantz: that's.

236

00:27:58.620 --> 00:28:00.180

Peter Scherer: Great so.

237

00:28:02.880 --> 00:28:11.010

Peter Scherer: It seems based on the numbers that it probably was viewed by a bunch of people as an asset to be able to choose first or second session.

238

00:28:12.150 --> 00:28:13.050

mnewman: yeah definitely.

239

00:28:14.850 --> 00:28:16.590

Peter Scherer: And are.

240

00:28:17.760 --> 00:28:23.310

Peter Scherer: Is the distribution of kids by grade similar to originally or you know heavy in the younger primary great.

241

00:28:23.640 --> 00:28:36.300

mnewman: um it yeah it's kind of heavy in the middle and the older, you know, four, five and six are are less kindergartens, probably a little lower than usual.

242

00:28:37.830 --> 00:28:43.050

mnewman: And you know I would say, parents just being cautious I would think.

243

00:28:44.160 --> 00:28:54.840

mnewman: With coven but the middle is kind of what we normally would you know if we had our strong numbers, you know one through three is always heavy.

244

00:28:56.310 --> 00:29:01.230

chrismantz: And while i'm basing this on a very, very strange year to start employment somewhere.

245

00:29:02.280 --> 00:29:03.060

Peter Scherer: Just kind of say.

246

00:29:03.570 --> 00:29:04.440

chrismantz: it's a.

247

00:29:05.760 --> 00:29:20.160

chrismantz: It is indicative of the fall programs, the winner and the spring now as far as sign up goes that the meat and potatoes of our numbers is that middle of what camp is so.

248

00:29:21.390 --> 00:29:30.270

chrismantz: I don't to me it's normal but I don't know about historically in the village what might could speak to that definitely does.

249

00:29:32.310 --> 00:29:32.640

Peter Scherer: and

250

00:29:33.870 --> 00:29:37.320

Peter Scherer: Our our parents by large.

251

00:29:38.430 --> 00:29:39.240

Peter Scherer: feeling.

252

00:29:41.130 --> 00:29:43.890

Peter Scherer: confident about the coven precautions.

253

00:29:45.150 --> 00:29:56.190

mnewman: I mean they haven't been given a the full layout of that yet I mean we're still you know we just finalized what our numbers were going to be and what locations we're going to be.

254

00:29:56.700 --> 00:30:07.650

mnewman: The plan is to like any typical camp season is to give parents, a handbook that will also have all the coven protocols that we are putting into place.

255

00:30:09.450 --> 00:30:22.350

mnewman: You know it's right along the same lines as what they're doing in school, so I don't envision there being too many issues and people will have questions and we'll be ready to answer them.

256

00:30:24.030 --> 00:30:24.480

But.

257

00:30:25.890 --> 00:30:28.740

mnewman: Again, they haven't been given all of that information just.

258

00:30:29.730 --> 00:30:43.770

Eric Morrissey: And, and to that point, you know that the situation is still very much fluid the Department of Health is having another planning conference call on Wednesday afternoon New York state is now adopting CBC guidance for summer camp.

259

00:30:44.880 --> 00:30:49.620

Eric Morrissey: So now another round of conference calls on that so.

260

00:30:50.040 --> 00:30:52.320

Eric Morrissey: And then go go for it my.

261

00:30:52.740 --> 00:31:03.060

mnewman: You know I mean Wednesday is the standard camp meeting with the county that we typically have at the county Center with every camp in the county.

262

00:31:04.080 --> 00:31:09.480

mnewman: So, like Eric said it is evolving so we'll have some more.

263

00:31:10.680 --> 00:31:17.040

mnewman: More information, I never say concrete with the county because they always kind of float in the Gray area, sometimes with giving us information.

264

00:31:18.540 --> 00:31:27.240

mnewman: But uh we'll have more information on what exactly they're expecting from us, I mean we we already know.

265

00:31:28.950 --> 00:31:31.680

mnewman: it's not going to train change drastically.

266

00:31:32.790 --> 00:31:36.630

mnewman: So we'll just adapt to what maybe things lesson.

267

00:31:37.140 --> 00:31:37.560

Peter Scherer: Right.

268

00:31:38.400 --> 00:31:43.020

Eric Morrissey: And then Mike can you speak to the the art the indoor art.

269

00:31:43.560 --> 00:31:45.270

mnewman: Oh yeah sorry we.

270

00:31:45.330 --> 00:31:56.670

mnewman: were talking with Eric and based on our numbers and even multiple if we did three locations in our group sizes aren't going to be more than 15 so you know we were talking about.

271

00:31:57.060 --> 00:32:05.100

mnewman: Since we are going to be at parkway and you know, in the survey the the heat was something that was brought up quite a bit.

272

00:32:06.030 --> 00:32:11.640

mnewman: So we believe we're going to use the REC room at the REC Center to have arts and crafts.

273

00:32:11.970 --> 00:32:26.130

mnewman: You know, again with all the social guidelines will open up the windows, but we'll crank the air so get a little bit of a break for 40 minutes or so depending on our schedule to do arts and crafts and be inside for a bit, so I think that's going to be a plus.

274

00:32:26.130 --> 00:32:26.970

chrismantz: For parents.

275

00:32:27.210 --> 00:32:32.160

mnewman: That when they're at parkway they're going to get a little bit of a break that day.

276

00:32:32.910 --> 00:32:42.330

chrismantz: We also actually tried it with clearance of course nobody needs to be nervous, we had a preschool program the other day, and it was simply too windy and cold.

277

00:32:42.780 --> 00:32:54.540

chrismantz: For them to be outside, but we still wanted to run it and our instructor was willing to do so and we did it in the room, with eight preschoolers perfectly socially distance we had a an entrance and an exit.

278

00:32:54.600 --> 00:33:01.080

mnewman: One way in and out signs on the floor letting people know where they should go which way they're what direction they need to move yeah.

279

00:33:01.110 --> 00:33:03.180

chrismantz: There was there was perfect, it was really easy.

280

00:33:04.320 --> 00:33:04.860

Nicole Asquith: that's good.

281

00:33:05.670 --> 00:33:11.880

Peter Scherer: So it's it's a it's a kind of a ramp up to the fall for for ramping up panther club.

282

00:33:13.050 --> 00:33:21.990

mnewman: yeah i'm aiming panther club once we know you know the schools, I mean sounds like they'll, let us in I think that's going to be an issue.

283

00:33:22.740 --> 00:33:40.020

mnewman: But just knowing what their expectations are and just working together now I feel like we've worked well with them in the past, I know there's a lot of new faces over there, but I think we'll be all right, once we know what everyone's expecting and start moving with panther club.

284

00:33:42.960 --> 00:33:45.870

Peter Scherer: All right, any other questions day camp.

285

00:33:47.850 --> 00:33:51.180

Peter Scherer: So let me just segue a little bit, are you thinking.

286

00:33:52.650 --> 00:33:57.840

Peter Scherer: About a backup plan for a reservation system for the pool potentially depending on demand.

287

00:33:59.220 --> 00:34:13.740

mnewman: yeah so there's two things I looked at, and you know my my my vision of what we should be doing is you know normal pool registration hopefully by next week, we can get that going.

288

00:34:14.400 --> 00:34:24.030

mnewman: end of this week i'd like to get information general information to everyone, about that, so we can start moving on this because it's time to start moving on this and then, as far as.

289

00:34:24.540 --> 00:34:37.290

mnewman: getting into the pool, I believe we should start with time slots, we can easily pivot to not doing time slots, we had Mario bj and the guys grid out the pool.

290

00:34:38.460 --> 00:34:41.010

mnewman: A much, much more.

291

00:34:42.930 --> 00:34:44.790

mnewman: Basically, the grid is going to be multiple.

292

00:34:45.810 --> 00:34:58.590

mnewman: different sizes so it'll be you know we'll have some singles will have some doubles a pod for four and a pod for six and that's all going to be a little spaced out on the deck and in some of the grass areas.

293

00:34:59.340 --> 00:35:16.890

mnewman: Everything six feet apart, we touch base with the county on what that you know just guidelines on exactly what we can do so i've worked i'm working with Community pass and hope to use Community pass as registration for pods.

294

00:35:18.060 --> 00:35:26.910

mnewman: We started working on it and i'm hoping to have some time tomorrow to work with them, basically, what what I vision is.

295

00:35:27.990 --> 00:35:38.370

mnewman: Maybe two days before like, if you want to go on Wednesday Wednesday is pool slots would open up on Monday and each of those slots will have a specific.

296

00:35:39.060 --> 00:35:57.930

mnewman: odd and a number, so that all the pods on our deck will be numbered and it'll be taught one and it's for a single pod two is four four and they will reserve won't cost anything but they'll reserve it through Community pass, and for that time slot.

297

00:36:00.030 --> 00:36:08.610

mnewman: I i'm actively working on that i'm hoping we can pull that off with Community pass I also did a DEMO with.

298

00:36:10.410 --> 00:36:32.280

mnewman: The name of the company is leaving me, but I know Mr Mayor you forward it over to Eric the company, so I did a DEMO with them, and you know got pricing it's not not terrible pricing I don't think and be able to most likely accommodate what we're looking to do.

299

00:36:33.300 --> 00:36:46.020

mnewman: So you know if we have to pivot there, I think we could do that fairly quickly really helped us Community past we have a system in place that would be ideal, I think we can.

300

00:36:47.670 --> 00:36:51.510

Peter Scherer: Because all those folks are already registered that's how you signed up for the pool right.

301

00:36:51.540 --> 00:36:58.290

mnewman: Right, so it would be, it would be seamless as far as you know you wouldn't be able to register for a pod unless you were a pool Member.

302

00:36:59.430 --> 00:37:01.860

mnewman: That That being said, during the DEMO.

303

00:37:03.000 --> 00:37:17.940

mnewman: The company, they would be able to upload our data, so we would be able to still kind of have that work out to go with another company, but again i'm hopeful that I can get it.

304

00:37:18.360 --> 00:37:18.750

So.

305

00:37:21.420 --> 00:37:24.480

Peter Scherer: yeah but your inclination at the moment is to start out reserved.

306

00:37:25.140 --> 00:37:33.120

mnewman: yeah I from the get go I don't like the idea of potentially having someone show up at the pool a family of four and being told.

307

00:37:34.020 --> 00:37:41.880

mnewman: you're just gonna have to wait in the parking lot you can't get in I think if we start with time slots, we can eat you know one.

308

00:37:42.690 --> 00:37:53.070

mnewman: busy, are we really we also make it a good indication once once membership starts if memberships lower than might help us lead to a longer doing time slots.

309

00:37:53.820 --> 00:38:02.700

mnewman: I had a zoom with our pool directors who are all coming back, they all kind of felt the same way that we should at least start with time slots and see how it goes.

310

00:38:03.330 --> 00:38:14.490

mnewman: Maybe we can abandon time slots during the week, and maybe just the weekends, or anything like that, but I think starting more restrictive and easing up is the way to go.

311

00:38:16.170 --> 00:38:22.050

Nicole Asquith: about the problem of if people reserve a time slot and they don't show up, is there a solution to that.

312

00:38:22.650 --> 00:38:26.010

mnewman: uh I haven't gotten to that part that.

313

00:38:27.270 --> 00:38:28.140

mnewman: i'm.

314

00:38:28.260 --> 00:38:30.360

Peter Scherer: Putting them on a wall of shame.

315

00:38:31.200 --> 00:38:57.150

mnewman: yeah um yeah I can when within building Community past I can look into so if that person doesn't show and it's available, can we give our pool directors, a little more accessing Community past where they could send out a message or open up the spot, I can't guarantee that but.

316

00:38:58.410 --> 00:39:04.170

mnewman: it's something I will look into as we're trying to build what I envision we can build yeah.

317

00:39:04.290 --> 00:39:05.610

Peter Scherer: And wouldn't be.

318

00:39:05.880 --> 00:39:07.710

Peter Scherer: kind of real time accurate, that is.

319

00:39:08.880 --> 00:39:13.590

Peter Scherer: Oh, my God the kids want to go with the coolest three o'clock login their space i'm coming out kind of thing.

320

00:39:13.620 --> 00:39:20.130

mnewman: yeah there's no reason that what i'm vision couldn't be that way they open up until you know.

321

00:39:21.240 --> 00:39:27.060

mnewman: If there's still spots available during that time slot I don't there's no reason I couldn't stay open.

322

00:39:28.890 --> 00:39:37.260

David Vinjamuri: um I know that we're we moved on from the camp, to the pool, but how many a scholarship were there that we know.

323

00:39:37.530 --> 00:39:41.910

mnewman: There were there were well we haven't heard anything, yet there were 10 scholarships.

324

00:39:43.770 --> 00:39:59.700

mnewman: One of those actually was a mistake and so far we've we've reached out to all of them only one of them has gotten back to us with the paperwork, we will reach out again, but we can't keep chasing people down if they're not going to follow through.

325

00:40:01.230 --> 00:40:08.820

mnewman: The paperwork, where we will create a voucher that the village will pay, and we will submit it through Community passing.

326

00:40:09.630 --> 00:40:14.100

mnewman: History, the one person that did send the paperwork was.

327

00:40:14.910 --> 00:40:24.150

mnewman: We did talk to them and let them know that you're all set don't worry about registering we just want to get it all set with the village and the check make sure it's all process.

328

00:40:24.480 --> 00:40:30.510

mnewman: And then we will get them registered so we're well aware that that at least that one person for right now is in the wings.

329

00:40:32.190 --> 00:40:33.090

David Vinjamuri: So um.

330

00:40:34.440 --> 00:40:44.700

David Vinjamuri: Is there any way that maybe Paul could look at what the communication you sent out to make sure there's no like red flags for immigration status or anything that might.

331

00:40:45.030 --> 00:40:51.750

David Vinjamuri: Be frightening people about turning in their paperwork there they're just getting their snap certification part from the school right.

332

00:40:52.110 --> 00:40:54.900

chrismantz: yeah I actually I emailed them directly.

333

00:40:56.010 --> 00:41:06.510

chrismantz: And some people email me back like it was like Mike said it was a mistake, I hit yes by accident, the people that the one actually family that responded.

334

00:41:07.320 --> 00:41:19.980

chrismantz: said no problem i'm going to talk to the school and get the updated letter I have an old one from last year or last year, maybe, but whatever it was they got a new one, and they sent it to me in 24 hours just about to.

335

00:41:20.700 --> 00:41:26.880

David Vinjamuri: People who said definitely not mean you have one person who said yes, how many are there in neither.

336

00:41:26.880 --> 00:41:28.350

chrismantz: i'm still i'm still waiting.

337

00:41:28.470 --> 00:41:33.060

chrismantz: I spoke with Eric today, I was going to reach out to about seven more families tomorrow.

338

00:41:33.180 --> 00:41:34.830

chrismantz: Because I did not hear back at all.

339

00:41:35.130 --> 00:41:42.900

chrismantz: From that so it's kind of a last chance effort to you know, give them something that if they are deserving.

340

00:41:43.530 --> 00:41:49.500

chrismantz: I want to put them in the numbers just know that that one family that is confirmed, they were not in the numbers.

341

00:41:50.430 --> 00:42:00.090

chrismantz: For this, because we just haven't processed it yet, but I would, I believe, is a third grade group if somebody's really nitpicky on numbers right now but uh the rest of the people.

342

00:42:00.840 --> 00:42:12.570

chrismantz: will see tomorrow by the end of the day, if they get back to me and I worded it just you know if you have your letter from the school for your assistant assistant lunch Program.

343

00:42:13.530 --> 00:42:21.090

chrismantz: Just all you have to do is forward that to me there's nothing else required it's, the only thing we need is just has to match names and.

344

00:42:21.960 --> 00:42:34.920

chrismantz: prove the address we already did that prove that their village resident, so there was nothing that might have actually as you put kind of put fear in them, it was more just, all I news the form, and you can come to camp.

345

00:42:37.980 --> 00:42:38.970

Michael Peppard: jumped in on this is.

346

00:42:39.240 --> 00:42:47.070

Michael Peppard: Just briefly just to follow up on what David said i'm having a little bit Internet connectivity issues here so hope you can hear me but.

347

00:42:49.020 --> 00:42:57.690

Michael Peppard: I what were the agreeing with David what were the means of communication and how long have you given them to respond, because a.

348

00:42:58.050 --> 00:43:10.740

Michael Peppard: You know, email email only for people who aren't sitting at a computer all day is is not often the best communication, you know it may, it may take a phone call it may take multiple phone calls if someone's working.

349

00:43:11.340 --> 00:43:12.690

Michael Peppard: Absolutely, working with.

350

00:43:13.800 --> 00:43:14.880

Michael Peppard: A single parent, you know.

351

00:43:15.390 --> 00:43:25.710

chrismantz: yeah now I 100% understand, I agree, I emailed everybody collectively bcc so you know, nobody knows who else is involved.

352

00:43:26.880 --> 00:43:40.530

chrismantz: It came from my work email pleasantville so it was an official email wasn't a we have a P ville recommendation gmail account that we use for people to submit forms because it's just a little easier.

353

00:43:41.220 --> 00:43:49.620

chrismantz: For people to do that, via the gmail and Google drive and all that but, and then I also called the people that I did not hear from.

354

00:43:50.010 --> 00:43:54.330

chrismantz: I left voicemails when I could, and if their voicemail box was full are not set up.

355

00:43:55.530 --> 00:44:02.670

chrismantz: it's it's only so much I can do i'm going to try, one more time tomorrow, and then I don't know how long you want me to wait, but.

356

00:44:02.760 --> 00:44:03.060

here's.

357

00:44:04.110 --> 00:44:12.570

mnewman: The other thing we you know I agree with Chris to a point, like we can only do so much and wait so long, but, that being said.

358

00:44:13.650 --> 00:44:30.930

mnewman: Our numbers in like group sizes if they get in touch with us and we, we still have the space, it probably is not going to be a problem I don't envision a lot of people still signing up for camp, so if there are still delayed, we should be able to make it work.

359

00:44:32.100 --> 00:44:33.480

David Vinjamuri: But is there a way that we can.

360

00:44:35.040 --> 00:44:43.470

David Vinjamuri: shane is there any way to to to to to relay the request for the schools to get the not not.

361

00:44:44.250 --> 00:44:56.610

David Vinjamuri: Not for the school to disclose their information, but just to get a message to them that they've been you know approved to get this if they have the the paperwork and that they should get back to the REC department.

362

00:44:56.730 --> 00:45:01.680

Shane McGaffey: You mean sending out an email to everybody who were or letting the school know that anybody on.

363

00:45:02.430 --> 00:45:07.410

Peter Scherer: yeah I don't know whether we have the right to do that Eric when you.

364

00:45:08.130 --> 00:45:12.900

David Vinjamuri: Know i'm i'm actually started before we decide whether we have a right to do, let me explain what i'm thinking.

365

00:45:13.110 --> 00:45:26.400

David Vinjamuri: We give you the specific names of the people, can you send to them through the school email just saying the villages notified us that you've asked her program if you would like our assistance on this, please contact us or something like that.

366

00:45:30.540 --> 00:45:31.110

Shane McGaffey: So.

367

00:45:32.340 --> 00:45:35.910

Shane McGaffey: You would give us a list of all the campers i'm just trying to make or.

368

00:45:36.180 --> 00:45:48.390

David Vinjamuri: i'm just saying like know the campers who who have applied for the scholarship program so it doesn't imply that we know that they are on snap it implies.

369

00:45:49.260 --> 00:46:02.670

David Vinjamuri: That they've said there and SAP and you don't have to indicate in your individually mouse them whether they are not that just saying hey we can you know if this is something that you want to pursue, we can help you get this done.

370

00:46:02.970 --> 00:46:09.990

Shane McGaffey: I can ask to see if that's possible I mean we're violating any rules by doing it, and if it's not weekend if it is, we can.

371

00:46:10.410 --> 00:46:11.970

David Vinjamuri: yeah The other thing.

372

00:46:12.330 --> 00:46:15.180

Peter Scherer: is quite a question with the word violating any rules on our side on.

373

00:46:16.260 --> 00:46:21.060

David Vinjamuri: The other question is, is it possible, Christians text people.

374

00:46:22.410 --> 00:46:23.190

chrismantz: I can try.

375

00:46:24.480 --> 00:46:30.780

David Vinjamuri: I mean it sounds back if those are workflows, but I think a lot of it might just be cell phones that are turned off during the day.

376

00:46:31.110 --> 00:46:35.010

mnewman: We definitely can throw a Community pass.

377

00:46:37.290 --> 00:46:40.170

mnewman: We should be able to do that send an email and a text.

378

00:46:41.310 --> 00:46:45.390

mnewman: as well, so yeah we should be able to do that yeah.

379

00:46:45.630 --> 00:46:45.870

David Vinjamuri: it's a.

380

00:46:46.590 --> 00:46:47.550

W. Paul Alvarez: Spanish speaking.

381

00:46:47.580 --> 00:47:00.360

W. Paul Alvarez: I can definitely jump in if for somebody to kind of find out that any of the families are Spanish became perhaps you know I get definitely jump in there just contact me, and I mean information I can write out something for you and just done it.

382

00:47:00.750 --> 00:47:01.200

David Vinjamuri: Okay yeah.

383

00:47:01.950 --> 00:47:10.920

David Vinjamuri: It was like thought if you'd heard back from 70% of them instead of 30% of them I might have a different feeling and we've done this before I might have a different feeling because.

384

00:47:11.310 --> 00:47:21.210

David Vinjamuri: You you guys did a good job on the registration forms that seem pretty clear that didn't seem like it was going to be a ton of people accidentally selecting that option.

385

00:47:22.440 --> 00:47:30.180

David Vinjamuri: So it makes me want to try to make this successful by making every extra effort, we can to get those people engaged.

386

00:47:31.200 --> 00:47:34.440

Peter Scherer: I will be right back i'm dying of thirst I got to refill my water.

387

00:47:36.510 --> 00:47:37.260

David Vinjamuri: Your brandy what.

388

00:47:37.800 --> 00:47:55.410

mnewman: yeah we can definitely reach out through Community paths again and make sure it's set up with a text, the only thing now that I say text if they haven't indicated that they want to receive texts, through our system there's nothing I can do with this text us.

389

00:47:56.520 --> 00:48:00.090

Michael Peppard: We got I think you're just maybe state my point.

390

00:48:01.110 --> 00:48:02.520

Michael Peppard: more succinctly.

391

00:48:03.840 --> 00:48:16.710

Michael Peppard: The sorts of when you have your heads can just go by, in a blink like you know and and logistics can pile up and mail piles up and emails pile up and it all it all just can be too much so.

392

00:48:17.190 --> 00:48:27.780

Michael Peppard: I think I think we should give give a little bit more space, and you know and try a few more times I like I like David said you guys doing a good job I just think we should try a little bit.

393

00:48:28.110 --> 00:48:43.650

David Vinjamuri: A little bit longer in fact my own family, would not be signed up except how how overwhelming the Shell was this weekend I just made, the call to to Chris to figure it out and get it done or we wouldn't be on this list either so.

394

00:48:45.960 --> 00:48:49.260

chrismantz: No worries oh yeah I get it done somehow so.

395

00:48:51.360 --> 00:49:07.080

chrismantz: But now i'll reach out again and I wasn't put on a timeline for those folks So if we want to give them a little bit longer until I can reach somebody involved then i'm 100% fine with that it's only a handful of people.

396

00:49:07.320 --> 00:49:09.120

chrismantz: So it's not it's not like we're looking at.

397

00:49:09.120 --> 00:49:13.050

chrismantz: 50 people that were will totally change the group dynamic.

398

00:49:14.310 --> 00:49:16.560

chrismantz: it's that's totally fine, we can give them more time.

399

00:49:18.570 --> 00:49:20.070

David Vinjamuri: Great Thank you.

400

00:49:20.430 --> 00:49:28.500

Peter Scherer: No problem all right anything else on any parks and REC subject before we release these guys into their regular life.

401

00:49:29.400 --> 00:49:39.960

Michael Peppard: I one other quick one about going from three sites to two sites for summer camp does that change the pool time plan for this or.

402

00:49:39.990 --> 00:49:42.120

mnewman: Well it'll give them more time at the.

403

00:49:42.120 --> 00:49:53.340

mnewman: pool, we were still wrote it will give each group some more time at the pool I mean we're still restricted to the morning we're not going to have camp in the pool when the public's there but it'll give them an extra.

404

00:49:53.940 --> 00:50:00.660

mnewman: day you know we're not rotating three we're rotating to so yeah more time at the pool, which is definitely a plus.

405

00:50:00.960 --> 00:50:03.060

Michael Peppard: yeah okay great perfect thanks.

406

00:50:03.510 --> 00:50:10.080

W. Paul Alvarez: I have one question about the pool did we decide on whether the Members are going to be out to have guests or not.

407

00:50:12.900 --> 00:50:16.140

mnewman: That I don't think we've totally decided.

408

00:50:17.640 --> 00:50:29.370

mnewman: My thought on that because i've gone back and forth on that um what I feel I think we can have guessed We just have to.

409

00:50:30.420 --> 00:50:39.870

mnewman: decide whether do we want our gate attendance taking cash at the gate or do we want how we want payment, are we okay with them taking cash and doing.

410

00:50:41.100 --> 00:50:50.640

mnewman: I mean they've taken cash in the past i'm just referring to passing of money and covert if that's an issue for anybody as far as the guests that.

411

00:50:50.940 --> 00:51:08.160

mnewman: come if I can build it in the Community pass and they're bringing a guest, I would like them to put the guests name in Community fast if I cannot do that, we will have a log at the pool that will state, you know the guests name and phone number for any tracing that we would have to do.

412

00:51:08.730 --> 00:51:18.930

W. Paul Alvarez: If about that, because I know that I believe, as of now mount pleasant has no guests, so I think that that is something that a lot of families are thinking, I can tell you my my wife.

413

00:51:19.380 --> 00:51:25.020

W. Paul Alvarez: She usually goes with my father in law, sometimes, he would be a guest I think that's something that can definitely make the difference.

414

00:51:26.160 --> 00:51:27.180

W. Paul Alvarez: Where they choose to go.

415

00:51:27.540 --> 00:51:32.640

mnewman: I agree with you and we've gotten a couple calls and just knowing the history of the pool and people that go.

416

00:51:33.660 --> 00:51:44.220

mnewman: That is a big part for a lot of people is being able to have a guest, you know grandma grandma grandma and grandpa live in pleasantville and they're taking, you know that their niece and nephew.

417

00:51:44.220 --> 00:51:44.670

W. Paul Alvarez: Exactly.

418

00:51:44.790 --> 00:51:55.920

mnewman: And stuff like that so that's why I think we should consider it and I think we can pull it off, as long as we're keeping track of who's coming in and going um.

419

00:51:57.960 --> 00:52:03.390

mnewman: And just the money thing and we can talk further about that how we want that to go.

420

00:52:03.870 --> 00:52:10.140

W. Paul Alvarez: I think it would make sense, I mean definitely gives us gives us just more of a family home to it, especially.

421

00:52:10.680 --> 00:52:14.880

W. Paul Alvarez: help people out because, obviously, a lot of times guess what sometimes people have nannies or they're not on.

422

00:52:14.940 --> 00:52:17.340

W. Paul Alvarez: yard, or anything like that babysitters whatever yep.

423

00:52:17.640 --> 00:52:22.350

Peter Scherer: So Oh, and it is more people to join as well if they have that as an options.

424

00:52:24.120 --> 00:52:26.580

Peter Scherer: All right, thank you guys.

425

00:52:27.390 --> 00:52:27.660

All right.

426

00:52:29.370 --> 00:52:32.160

Peter Scherer: Thank you, oh you're drinking from a fire hose at the moment and.

427

00:52:32.160 --> 00:52:35.580

Peter Scherer: We appreciate that you're swallowing it not drowning so.

428

00:52:37.680 --> 00:52:38.340

mnewman: Alright, have a good one.

429

00:52:39.180 --> 00:52:39.570

Peter Scherer: Thank you.

430

00:52:39.960 --> 00:52:41.970

Peter Scherer: All right, we just had a quick, one that we.

431

00:52:41.970 --> 00:52:42.510

Can.

432

00:52:43.920 --> 00:53:01.710

Peter Scherer: Cover before we go to our regular meeting and four minutes, and that was the request by the break the whole foundation for the annual walk to the light which they did not do last year, they want to do it on June 13 and, as has the case in the past it starts at 430 in the morning.

433

00:53:03.420 --> 00:53:11.340

Peter Scherer: You saw the backup it's the same route, they have used in the past, like with some covert protocols online registration only.

434

00:53:12.360 --> 00:53:27.540

Peter Scherer: Totally outdoor event in the past, the school has allowed them to use the cafeteria that I assume is not in the cards and they say they will limit registration to 200 you have any we have you on chief for the regular meeting you have any.

435

00:53:28.800 --> 00:53:29.880

Peter Scherer: thoughts about this.

436

00:53:31.950 --> 00:53:38.910

Erik Grutzner: So actually Mr Allen and I had a nice conversation last week, so we did sort of discuss the the totality of the of the.

437

00:53:39.690 --> 00:53:44.340

Erik Grutzner: Of the event, what excuse me, what he planned on on on asking for.

438

00:53:45.090 --> 00:53:58.020

Erik Grutzner: You know it mirrors last year, you know anytime we're going to have a nice I said this, Mr halloran anytime we're going to have people walking down the middle of the street in the middle of the night, and I have concerns, but it's been done before it's been done successfully in the past.

439

00:53:59.460 --> 00:54:05.880

Erik Grutzner: it's a you know i'll leave you all to discuss the the impact of it on the Community and the role that it plays.

440

00:54:07.290 --> 00:54:10.530

Erik Grutzner: We have concerns we have manpower concerns we have a number of concerns regarding it.

441

00:54:12.810 --> 00:54:15.120

Erik Grutzner: Not the least of which is on short notice.

442

00:54:16.830 --> 00:54:25.230

Erik Grutzner: Getting we've used the sheriff's emergency force who we've used for any of our large scale gatherings and road closures in the past, so getting that would be a challenge.

443

00:54:26.430 --> 00:54:27.030

Erik Grutzner: But it's.

444

00:54:27.090 --> 00:54:30.000

Peter Scherer: it's a challenge it you're not sure we could get those guys.

445

00:54:30.390 --> 00:54:31.770

Erik Grutzner: So um.

446

00:54:32.880 --> 00:54:38.190

Erik Grutzner: We haven't asked for the sheriff's emergency for us for any of our activities at this point just not knowing where they where they stood.

447

00:54:39.390 --> 00:54:41.730

Peter Scherer: You mean visa V qr code.

448

00:54:43.020 --> 00:54:43.920

Erik Grutzner: yeah correct.

449

00:54:44.340 --> 00:54:45.840

Erik Grutzner: Not knowing what the what the.

450

00:54:47.130 --> 00:54:49.290

Erik Grutzner: The calendar was going to look like for major events.

451

00:54:50.340 --> 00:54:53.880

Erik Grutzner: So it's it's a challenge, although I would expect as well.

452

00:54:54.990 --> 00:54:59.160

Erik Grutzner: Excuse me, although I don't know of any changes, without any any.

453

00:55:00.330 --> 00:55:11.400

Erik Grutzner: organizational changes at the county police, then I would expect they've probably been used far less than they have in the past, because everyone is.

454

00:55:11.970 --> 00:55:20.040

Erik Grutzner: You know, very few municipalities are back to running their usual calendar of events, so there are still challenges that are out there, but it's.

455

00:55:21.210 --> 00:55:23.220

Erik Grutzner: You know we've we've done in the past, so.

456

00:55:24.810 --> 00:55:31.830

Peter Scherer: All right, I see Ryan halloran has signed on here, did you want to add anything Ryan you've given us the data on your application so.

457

00:55:33.840 --> 00:55:34.740

Peter Scherer: Here i'm muted.

458

00:55:37.860 --> 00:55:41.760

Brian Halloran: Thank you for your time, and let me address the board and mayor, I just.

459

00:55:42.870 --> 00:55:47.310

Brian Halloran: we're just petitioning and to have the walk again this year we missed you last year at the cove it.

460

00:55:48.120 --> 00:55:56.280

Brian Halloran: we've been very successful very well plan very well organized and just briefly, I like to tell me sure everybody understands would break the whole does.

461

00:55:56.880 --> 00:56:02.190

Brian Halloran: It break the whole emotional wellness organization that we found it and I direct and it.

462

00:56:02.730 --> 00:56:11.580

Brian Halloran: provides primarily provides programming in the school system and a great deal of programming into plausible school systems in fifth grade sixth grade and ninth grade.

463

00:56:12.180 --> 00:56:16.380

Brian Halloran: And, and we are growing the program and expanding to the school districts.

464

00:56:17.010 --> 00:56:22.620

Brian Halloran: So that's just quickly, one of the things that we do we provide resources for all people who are in trouble to.

465

00:56:22.980 --> 00:56:27.810

Brian Halloran: Provide pro bono counseling and direction to other resources and planning, but anyway.

466

00:56:28.230 --> 00:56:34.980

Brian Halloran: i'm on June 13 and petitioning to have the walk, we will have more than 200 people we've gotten approval from high school to have it.

467

00:56:35.250 --> 00:56:45.240

Brian Halloran: started in the circle, once again, we would not go into the cafeteria if we need to do anything from the cafeteria we do pass

through through the window if we have the handout T shirts or something along those lines.

468

00:56:46.260 --> 00:56:56.280

Brian Halloran: we're going to help the school have a school help counsel us in the best practices for protocol obviously social distancing only outside.

469

00:56:56.640 --> 00:57:04.710

Brian Halloran: 200 most we're going to send out an email and do some pre walk screening asking questions we're going to take temperature of all walkers when they arrive.

470

00:57:04.980 --> 00:57:12.570

Brian Halloran: and master required, it will be handed out with the dth on them and so we're hoping, and although I know I spoke to chief HR officer.

471

00:57:13.230 --> 00:57:19.200

Brian Halloran: Like I said the other day um it's always been a conservative start in the morning at 430.

472

00:57:19.950 --> 00:57:33.840

Brian Halloran: I think we're halfway through that walk, it is not dark any longer, but it is still a difficult more difficult situation and we understand it, but the reason we have the time is the poignancy and the drama that it creates and the level of.

473

00:57:35.190 --> 00:57:41.730

Brian Halloran: Not branding but level of awareness that is created by having such an event at such an odd or different time.

474

00:57:42.090 --> 00:57:48.960

Brian Halloran: And this, and the meaning of into the light that there is hope and that you can head in the direction that we can help with and and others can help with.

475

00:57:49.620 --> 00:57:57.030

Brian Halloran: So it's important for us to have it know we're always amenable to any changes if we are asked to or need to but would you know.

476

00:57:57.420 --> 00:58:06.960

Brian Halloran: prefer to keep it as is and just as far as the route itself to walk we wouldn't be amenable to maybe modifying that if it helps.

477

00:58:07.890 --> 00:58:19.680

Brian Halloran: Chief presser in the force out I don't know what I could do, if I could help to find volunteers, whether they be police are not police, but I don't know how you feel about all that as well.

478

00:58:20.550 --> 00:58:23.160

Peter Scherer: Alright, well, I mean clearly it's.

479

00:58:24.240 --> 00:58:37.470

Peter Scherer: pleasantville event so chief wanted to reach out and see whether it appears that the sheriff's group would be available to us, as they have in the past and what is no that makes sense here absolutely but Brian certainly.

480

00:58:37.530 --> 00:58:43.380

Peter Scherer: We can make this happen, obviously that's our goal and i'm optimistic, we can.

481

00:58:44.610 --> 00:58:55.050

Nicole Asquith: Thank you, Brian Brian could you tell us a little bit more do we have time we probably don't have time to me know well sometime i'd be curious to hear a little bit more about what you're doing in the schools.

482

00:58:56.070 --> 00:59:01.380

Brian Halloran: i'm glad to talk to you offline time my number is 9077321 i'm a.

483

00:59:05.370 --> 00:59:06.270

Brian Halloran: lot of people call me.

484

00:59:06.330 --> 00:59:12.210

Brian Halloran: I don't know i'm not no se ni to one and what the program we do is based on dialectical behavior therapy.

485

00:59:12.450 --> 00:59:20.430

Brian Halloran: We have trained certified counselors in the classroom teaching certain number of hours a year, so the kids get mental health curriculum like they get physical of curriculum.

486

00:59:20.700 --> 00:59:32.130

Brian Halloran: And we want that to be embedded in the programs, and we want them to that throughout New York state and the rest of the country,

we can, because I want to go on without me or you or anybody else being here, I wanted to be part of the system.

487

00:59:32.820 --> 00:59:33.090

Ryan.

488

00:59:34.110 --> 00:59:39.510

David Vinjamuri: Thanks for doing this we We appreciate your support and community and we're happy to help.

489

00:59:40.110 --> 00:59:46.410

Brian Halloran: Thank you guys, I appreciate your time and I appreciate all the efforts that you put into the Community I know it's a lot of time and a lot of work.

490

00:59:46.980 --> 00:59:50.190

Peter Scherer: right back at you buddy so thank you, Brian.

491

00:59:50.400 --> 00:59:51.270

Brian Halloran: Thanks all right.

492

00:59:51.900 --> 01:00:00.030

Peter Scherer: that's the rest of our work session, and now we are ready to hit into regular session everybody ready.

493

01:00:04.500 --> 01:00:05.130

Peter Scherer: alright.

494

01:00:06.210 --> 01:00:12.270

Peter Scherer: Good evening and welcome to the village board meeting for the village of pleasantville today is Monday April 26.

495

01:00:13.740 --> 01:00:21.750

Peter Scherer: Has has been the case for some months and likely some weeks forward we've been meeting entirely on zoom as have our other boards and committees, you can pick up the.

496

01:00:22.080 --> 01:00:33.150

Peter Scherer: zoom links for those meetings at our website at pleasantville dash ny.gov and within a few days, you can pick up an on demand webcast of our work session or regular session.

497

01:00:34.320 --> 01:00:36.390

Peter Scherer: At PC TV 76 dot org.

498

01:00:38.220 --> 01:00:40.560

Peter Scherer: Our regular sessions around the second and fourth.

499

01:00:41.760 --> 01:00:47.430

Peter Scherer: Monday of each month, which means that our next regular meeting is on.

500

01:00:48.720 --> 01:00:54.600

Peter Scherer: get to the calendar on Monday make 10 with a work session at seven radio meeting at eight.

501

01:00:55.890 --> 01:01:17.460

Peter Scherer: So at a few announcements to make, and then we have our police chief here to provide a quarterly update, which was one of the recommendations that came out of our police reform process more on that in a minute, let me try to jump through a couple of these announcements.

502

01:01:17.970 --> 01:01:19.350

Peter Scherer: First, obviously, is the word of.

503

01:01:19.350 --> 01:01:21.270

Peter Scherer: coven i'm going to share my screen.

504

01:01:24.000 --> 01:01:32.340

Peter Scherer: reminding everybody that if you go to West Chester gmail COM, this is what you would see click to the top you go to the dashboard.

505

01:01:33.210 --> 01:01:42.600

Peter Scherer: The dashboard will bring you to the westchester county cove a dashboard in this left column once it loads you can scroll down and see that.

506

01:01:43.050 --> 01:01:51.660

Peter Scherer: The village applause bill currently has 18 active cases the villager pleasantville since yesterday had to new active cases.

507

01:01:52.140 --> 01:02:04.560

Peter Scherer: And cumulative since they started counting 694 cases, so it seems near a certain based on past experience that will CREST 700 sometime in the course of this week.

508

01:02:05.130 --> 01:02:13.980

Peter Scherer: But the happy news is that those numbers have been trending down, not only in pleasantville but elsewhere in the county and it's it's great news.

509

01:02:14.730 --> 01:02:16.170

Peter Scherer: It certainly means people.

510

01:02:16.590 --> 01:02:23.100

Peter Scherer: need to still be careful, if you go up here, you can click to a new dashboard which is.

511

01:02:24.150 --> 01:02:28.350

Peter Scherer: The vaccine dashboard which tells you.

512

01:02:29.580 --> 01:02:48.210

Peter Scherer: All of the various sites that are delivering vaccines, the total number of vaccines delivered and then you can scroll down in this column and find the vaccine situation, based on zip code, so if we scroll where is 105 there we go.

513

01:02:48.900 --> 01:02:50.790

Peter Scherer: Alright, so the 1057 zip code.

514

01:02:51.360 --> 01:02:54.840

Peter Scherer: Which is a bigger than just the village.

515

01:02:57.930 --> 01:03:13.110

Peter Scherer: Johnson and Johnson threaded 24 doses first dose of the two part vaccines 6175 second dose for a 349% of the population 18 and over in the one or five seven.

516

01:03:13.710 --> 01:03:14.940

Michael Peppard: zip code has received the.

517

01:03:14.940 --> 01:03:15.750

vaccine so.

518

01:03:17.160 --> 01:03:24.360

Peter Scherer: Not not a bad number and comparison to some of the numbers, you can see here in the Left column and compare our experience to those elsewhere.

519

01:03:24.870 --> 01:03:38.880

Peter Scherer: whole lot of people in pleasantville and its environment have gotten vaccines, but we really, really encourage folks to do it, it is a an extraordinarily good way to help protect you and everybody else.

520

01:03:40.410 --> 01:03:48.060

Peter Scherer: Northwest health which operates both phelps hospital and northern westchester hospital sent out an email today.

521

01:03:49.140 --> 01:04:02.700

Peter Scherer: And reminded folks and wanted us to remind all of you that they have currently got quite a bit of availability, so if you go to this website northwestern.edu type in vaccine.

522

01:04:04.440 --> 01:04:15.240

Peter Scherer: You will get the coronavirus digital resource Center and appointments are available book now filter by zip code.

523

01:04:19.200 --> 01:04:20.100

Peter Scherer: I filter.

524

01:04:22.590 --> 01:04:24.510

Peter Scherer: Northern westchester the.

525

01:04:25.800 --> 01:04:33.060

Peter Scherer: chap o'clock crossing North well a chap crossing has both moderna and Pfizer.

526

01:04:34.020 --> 01:04:43.950

Peter Scherer: available now, so you can also go through the Am I eligible site and go through the state, if you go direct to North well it ends up in this state database.

527

01:04:44.640 --> 01:05:00.930

Peter Scherer: It doesn't matter which way you go or where you go, but the availability of vaccines is substantially better than it was even a couple of weeks ago so let's get that political number up, I will pass 49 I really encourage everybody to do that.

528

01:05:03.030 --> 01:05:06.480

Peter Scherer: If you're interested in having a digital.

529

01:05:07.830 --> 01:05:21.180

Peter Scherer: first version that verifies that you have been through the vaccine process, you can download the New York state excelsior pass which is available on android or or the ios.

530

01:05:21.570 --> 01:05:35.520

Peter Scherer: platforms that that that will allow you to download essentially vaccine verification into your smartphone and save it to the wallet if you're so inclined that's again available to you at.

531

01:05:36.600 --> 01:05:46.770

Peter Scherer: The at the two week point after your second vaccine or I guess the two point after the Johnson and Johnson in work session, we had a good long discussion with.

532

01:05:48.180 --> 01:05:54.390

Peter Scherer: Mike Newman and Chris manse from our parks and REC department we're rolling into the full season of the day camp season.

533

01:05:55.740 --> 01:06:05.010

Peter Scherer: cool information will be available soon, maybe as soon as next week for enrollment we are going to run the full season they'll be some covert restrictions, but.

534

01:06:05.340 --> 01:06:15.420

Peter Scherer: we're hoping to make it as normal, as we possibly can, if you or your offspring are interested in a lot in a lifeguard or counselor job they should reach out to the folks at our parks department.

535

01:06:16.830 --> 01:06:32.850

Peter Scherer: And then two other items I wanted to just mention briefly that reflect what's going on at the state and federal level one is, as you have doubtless read arpa the American rescue plan Act, which is that code relief act issued by the Federal Government.

536

01:06:33.900 --> 01:06:48.630

Peter Scherer: will ultimately produce quite a bit of money for the village of pleasantville and for every community we're roughly speaking anticipating about \$400,000 in arpa money this year and then 400,000 next it's divided across two years.

537

01:06:49.380 --> 01:06:51.390

Peter Scherer: we're waiting for the Department of treasury, to give us.

538

01:06:51.420 --> 01:07:04.140

Peter Scherer: details about what the restrictions are for what it can be used for because there will be some but uh certainly very good news in a covert constraint year to help address budget issues and then.

539

01:07:05.520 --> 01:07:13.170

Peter Scherer: The last point I wanted to make and which i've mentioned in the past is that, as you doubtless know New York state has legalized marijuana.

540

01:07:13.920 --> 01:07:23.520

Peter Scherer: with certain parameters and one of the issues that we all confront in every community in New York state, he is whether we will wish to avail ourselves of the opt out.

541

01:07:24.180 --> 01:07:35.550

Peter Scherer: option which is offered to us to opt out of having a retail dispensary in our Community and or to opted out of an onsite consumption.

542

01:07:36.060 --> 01:07:46.800

Peter Scherer: site, neither of those two things opt in or opt out have anything to do with the legal status folks using or possessing or with limits, has written in the law.

543

01:07:47.730 --> 01:07:59.160

Peter Scherer: cultivating marijuana the issue that we are given is simply to address the question of whether we want to opt out from a sales or onsite consumption so that's gonna be a conversation.

544

01:08:00.000 --> 01:08:07.890

Peter Scherer: With the Community, and I know the folks at pleasantville strong have strong opinions about it, it has given given us some information will make that available to everybody, but.

545

01:08:08.430 --> 01:08:25.650

Peter Scherer: Within the next few weeks will be reaching out to the Community to get a broader sense of where the Community stands on those issues as we try to get our arms around what the issues are and what to do about them so anybody else have announcements or comments before we.

546

01:08:27.330 --> 01:08:29.520

Peter Scherer: Let chief krasner have the floor.

547

01:08:32.940 --> 01:08:33.480

Peter Scherer: alright.

548

01:08:34.680 --> 01:08:37.380

Peter Scherer: Chief Gretchen Eric Eric restaurant police chief.

549

01:08:38.520 --> 01:08:41.460

Peter Scherer: I will be coming to visit us.

550

01:08:44.610 --> 01:08:52.920

Peter Scherer: on a quarterly basis to give us pleasantville police department, we welcome him here tonight, for the first of them's welcome chief.

551

01:08:53.910 --> 01:09:01.110

Erik Grutzner: Thank you very much, Mr Mayor, good evening everybody, thank you for taking the time as the mayor mentioned this was.

552

01:09:02.340 --> 01:09:05.940

Erik Grutzner: These updates were born out of the police reform process but.

553

01:09:07.110 --> 01:09:17.130

Erik Grutzner: You know I think it's providing a wonderful opportunity for a number of things, obviously, for informational sharing out to the Community and out to to the board.

554

01:09:17.850 --> 01:09:24.600

Erik Grutzner: But it also sort of focuses our our efforts, a little bit more looking forward to getting your feedback on the information that I.

555

01:09:25.200 --> 01:09:31.350

Erik Grutzner: Provide tonight if it's if you feel that it's timely if there are other things that you're you're interested in finding out about.

556

01:09:31.710 --> 01:09:40.980

Erik Grutzner: And i'm looking forward to this being a healthy conversation and a process that moves forward and and, hopefully, hopefully this one's good and the next one is even better so.

557

01:09:42.030 --> 01:09:45.180

Erik Grutzner: We can start screen sharing whoever's driving there.

558

01:09:46.200 --> 01:09:48.210

Peter Scherer: You have it and are you on this.

559

01:09:51.720 --> 01:09:56.670

Erik Grutzner: Wonderful This is my my it's my second iteration of the template for this.

560

01:09:57.840 --> 01:10:01.440

Erik Grutzner: For this, the first one was just a couple bunch of blogs on the screen, so I tried to.

561

01:10:01.920 --> 01:10:02.940

Peter Scherer: make it a little blue and I.

562

01:10:03.000 --> 01:10:04.290

Peter Scherer: will try to do an hour.

563

01:10:05.460 --> 01:10:08.730

Erik Grutzner: I am yes i'm a big fan of PowerPoint these days.

564

01:10:09.780 --> 01:10:16.080

Erik Grutzner: So starting off obviously one of the big we could yep absolutely we can one of the big issues that came up from the.

565

01:10:16.680 --> 01:10:27.690

Erik Grutzner: police reform was the the desire for the Community to see our officers out on foot engaging with the Community and i'm happy to report to the board tonight that we have reinstituted are walking post on wheeler avenue.

566

01:10:28.830 --> 01:10:33.240

Erik Grutzner: So far, for the last three weeks or so we've been out about three averaging about three days a week.

567

01:10:33.810 --> 01:10:45.600

Erik Grutzner: And we do it from 11 in the morning until two in the afternoon so obviously caseload or call volume is dependent on this, but we, we have definitely committed to putting.

568

01:10:46.560 --> 01:10:58.590

Erik Grutzner: Putting officers on foot back on we are having one in the downtown business district at at what is becoming again a very busy time in that area and then, as the weather improves will expect to have our bicycle patrol.

569

01:11:00.150 --> 01:11:13.260

Erik Grutzner: back out on you know, obviously, a little bit more For those of you who haven't had this conversation with in the past bicycle patrol is sort of a it's kind of a hybrid between that walking post.

570

01:11:13.710 --> 01:11:23.760

Erik Grutzner: And, and the vehicle, it provides a little bit more ability and mobility we're always challenged when we need to have two officers on the road ready to respond to a call at any time to have.

571

01:11:25.200 --> 01:11:36.660

Erik Grutzner: To have a walking officer move too far away from his or her vehicle and not be able to respond quickly the bicycle patrol first and foremost we usually most of the time it's a supplemental.

572

01:11:38.340 --> 01:11:43.740

Erik Grutzner: supplemental assignment for the day, so we would have an extra officer who is able to ride the bicycle.

573

01:11:44.670 --> 01:11:49.860

Erik Grutzner: Or, if possible, we do occasionally put officers on bikes and then just make sure that they're close enough.

574

01:11:50.160 --> 01:12:00.450

Erik Grutzner: That they can still come back to headquarters and getting the car or get back to their car wherever that might be usually its headquarters, because it saves the time of adding secure the bicycle to the car.

575

01:12:01.380 --> 01:12:14.640

Erik Grutzner: But it definitely sort of increases the area that that officer can cover, which is good for the Community and it's good for the officer and it alleviates you know any any potential for boredom and things like that so we're excited to be bringing that back.

576

01:12:15.870 --> 01:12:24.840

Erik Grutzner: You know everything sort of dovetails like any organization all the pieces sort of come together and support each other and we're going to talk a little bit more about our newest officers who are here.

577

01:12:25.770 --> 01:12:37.830

Erik Grutzner: But the impact of having two new officers and to two more people filling our patrol slots is kind of one of the ways we're going to see a very immediate impact of that in a very positive impact is.

578

01:12:39.360 --> 01:12:45.000

Erik Grutzner: You know more more tours where we don't have just the bare minimum of officer be more than two people on the road.

579

01:12:45.420 --> 01:12:51.480

Erik Grutzner: That gives us a lot of different opportunities, whether it's enforcement whether it's community policing whatever it is.

580

01:12:52.170 --> 01:13:03.840

Erik Grutzner: gives us the opportunity to do a lot more for the Community with more people we have so again, thank you to the board for supporting those two those two officers who will talk more about in a few minutes nori go next.

581

01:13:09.720 --> 01:13:26.760

Erik Grutzner: So I know always always concerned about our overtime numbers so just a quick general breakdown of where our overtime hours have developed from and you'll see that 630 hours our tour coverages so that would be anything from.

582

01:13:28.830 --> 01:13:35.700

Erik Grutzner: holes in the monthly schedule, as we issue it to coverage for sick time or personal time or other recruit leave.

583

01:13:36.720 --> 01:13:45.540

Erik Grutzner: But basically, we were below our minimum staffing requirements and needed to fill that in with over time so that was the lion's share of our over time as it usually tends to be.

584

01:13:46.590 --> 01:13:50.190

Erik Grutzner: We did 64 hours of covert so when we had officers who.

585

01:13:51.870 --> 01:13:57.300

Erik Grutzner: Who needed to quarantine or two away test results we had eight shifts that has to be covered for overtime there.

586

01:13:58.200 --> 01:14:07.020

Erik Grutzner: We saw a 46 and a half hours of crossing school crossing coverage so we'll use our our parking enforcement or community service working.

587

01:14:07.590 --> 01:14:23.760

Erik Grutzner: community service worker personnel to cover those, but there are times when we still are required to cover a post and we don't have any other options, and we have to go with a police officer to cover that the good news is within just the last few weeks we did hire.

588

01:14:26.430 --> 01:14:36.750

Erik Grutzner: A crossing guard, a new crossing guard, so we do expect that those numbers are going to for the next for the remainder of the school year we would expect that those numbers, barring any sort of unforeseen.

589

01:14:37.290 --> 01:14:43.920

Erik Grutzner: situation, we would expect that that's that's probably going to be lower for the remainder of the school year than it was for the last three months.

590

01:14:44.850 --> 01:14:56.790

Erik Grutzner: 28 hours for arrest processing case follow up in court appearances 2427 hours for the government that gtc is the governor's traffic safety Council they provide say.

591

01:14:57.810 --> 01:15:05.580

Erik Grutzner: A state grant process that we participate in, so we send out and do different traffic enforcement.

592

01:15:06.780 --> 01:15:23.760

Erik Grutzner: With the money that's provided by them on a side note, and this is still in the works, but i'm comfortable enough to talk about it in public, we had formerly and previously also participated in another grant, which was the STOP dwi grant, if you remember at the budget.

593

01:15:24.870 --> 01:15:28.890

Erik Grutzner: portion of the conversation we had talked about the fact that their funding.

594

01:15:30.780 --> 01:15:32.070

Erik Grutzner: Their funding.

595

01:15:33.120 --> 01:15:36.420

Erik Grutzner: criteria had seemed to be under a little bit of a.

596

01:15:39.780 --> 01:15:51.960

Erik Grutzner: Was there were some discrepancies, they were it was evolving let's put it that way, there was some evolution in there and how

they determine whether or not they would fund our the overtime that we submitted.

597

01:15:53.640 --> 01:16:00.120

Erik Grutzner: But, and I will give full credit to lieutenant last one for this, he really took the bull by the horns he went out he did a lot of.

598

01:16:01.110 --> 01:16:07.590

Erik Grutzner: A lot of legwork made a lot of phone calls talked to a lot of people, and we think we've kind of cleared up some of the discrepancies that were there.

599

01:16:08.100 --> 01:16:20.070

Erik Grutzner: So we are looking forward to not immediately, but hopefully at some point in the near future resuming that stop dwi enforcement and, potentially, you know that is, that is a cost free a budget neutral.

600

01:16:23.220 --> 01:16:32.370

Erik Grutzner: bit of enforcement, that we can do around the village, which we find that very important 19 hours for training, whether it was for specific training which we'll talk more about the training that we did.

601

01:16:34.260 --> 01:16:46.530

Erik Grutzner: or to the shift coverage for other people to go to training and then just one event or one type of event, with a football games that we had we did pay it forward time for officers to be there.

602

01:16:48.000 --> 01:16:51.960

Erik Grutzner: trustee asked with this is these numbers go from January 1 through march 31.

603

01:16:54.420 --> 01:16:54.960

Nicole Asquith: Absolutely.

604

01:16:55.080 --> 01:16:56.490

Erik Grutzner: So next slide.

605

01:16:58.260 --> 01:17:05.700

Erik Grutzner: In other news I learned how to build a chart and put it into a PowerPoint this week, so this is the result of that work there.

606

01:17:06.810 --> 01:17:09.660

Erik Grutzner: So again, you know, the vast majority of what.

607

01:17:10.740 --> 01:17:15.690

Erik Grutzner: Of what the overtime we're doing is just for shift coverage and to make sure that we have our minimum staffing on the roads.

608

01:17:16.290 --> 01:17:29.400

Erik Grutzner: again talking to two more officers, we would, although it's not a an hour for our sort of exchange, we would expect that there would be obviously more people would create a less shortages.

609

01:17:31.560 --> 01:17:32.340

Erik Grutzner: Next, please nori.

610

01:17:34.770 --> 01:17:37.560

Erik Grutzner: So uh we had.

611

01:17:40.140 --> 01:17:51.990

Erik Grutzner: Just a quick breakdown not gonna read through the numbers here i'll talk touch on a little bit of things moving violations parking summons is winter is not the time when we normally under normal years would do.

612

01:17:53.130 --> 01:18:04.470

Erik Grutzner: As much traffic enforcement just the weather keeps people usually, when the weather gets better people drive worse, so this would start to be as the springtime comes up.

613

01:18:05.520 --> 01:18:16.890

Erik Grutzner: We would probably see a little bit more enforcement a couple things to consider, however, we are still operating with the consideration of code and we really have tried to move toward a.

614

01:18:18.960 --> 01:18:20.550

Erik Grutzner: A philosophy of engagement.

615

01:18:21.750 --> 01:18:29.670

Erik Grutzner: In addition to enforcement, so we are not, we are not we've never had quotas, we are not counting officer.

616

01:18:31.050 --> 01:18:38.070

Erik Grutzner: activity by how many tickets, they write, but I think if you drive around the village you're still seeing that are officers are still engaged.

617

01:18:38.670 --> 01:18:48.660

Erik Grutzner: In traffic enforcement activity, but sometimes the realization is that more benefit can come from a warning or from a little bit of education, rather than just making sure that we write a ticket.

618

01:18:50.010 --> 01:19:07.770

Erik Grutzner: We had nine arrests that number is is low, one of one of the things that we we've come to decide as a group we're putting this information together and gathering all the information necessary for it is this was this was we are, we were definitely for a good part of this quarter.

619

01:19:09.600 --> 01:19:22.080

Erik Grutzner: This Community was still hunkered in, whether it be whether, whether it be coven, but we are starting to have a we're starting to get indications that.

620

01:19:23.460 --> 01:19:27.570

Erik Grutzner: where people are coming out of their shells people are going to start being back having sleep as.

621

01:19:27.960 --> 01:19:29.130

Peter Scherer: good and bad idea.

622

01:19:29.370 --> 01:19:45.840

Erik Grutzner: Striking yes absolutely so you know businesses are starting to open up more and so we're just seeing more interaction and obviously more interaction is a good thing for like the mayor said it's good for the Community, but sometimes keeps us busier than than we probably have been so.

623

01:19:47.010 --> 01:19:54.210

Erik Grutzner: The nine arrests, to work for impaired motorists and again we're starting to see more people on the street we're expecting that those numbers are going to go up.

624

01:19:55.440 --> 01:20:04.380

Erik Grutzner: Three drug offenses to driving offenses one property crime, it was not a significant crime, but I mentioned it here because it did represent.

625

01:20:05.850 --> 01:20:14.550

Erik Grutzner: A interaction and a partnership with the school district, they were the ones who called us, and this is something that happened up at the school was not a student somebody who is just on the property.

626

01:20:15.060 --> 01:20:26.100

Erik Grutzner: did a little bit of damage, but we were able to respond quickly and again we're very, very lucky and fortunate to have the relationship that we have with the schools and so anytime that we can.

627

01:20:27.180 --> 01:20:29.760

Erik Grutzner: have a positive outcome, like this, where we're very happy about it.

628

01:20:31.590 --> 01:20:32.250

Erik Grutzner: Great next.

629

01:20:34.500 --> 01:20:34.950

So.

630

01:20:36.060 --> 01:20:51.120

Erik Grutzner: We had no personnel complaints I know we've we've definitely moved forward into a new era and a new relationship with person personnel complaints with the repeal of so i'm happy to report that the first quarter we receive no formal personnel complaints.

631

01:20:52.290 --> 01:20:56.340

Erik Grutzner: And I would expect, as we move forward this slide is not going to change very often.

632

01:20:57.540 --> 01:21:08.340

Erik Grutzner: Because, as we talked about it during the reform process we you know we averaged one to two personnel complaints, a year and some some years we go with without any so good news there next.

633

01:21:11.430 --> 01:21:18.900

Erik Grutzner: However, we're going to talk about the complaints we should talk about the compliments as well, and we continue to receive good compliments so just a few examples of that.

634

01:21:19.950 --> 01:21:20.760

Erik Grutzner: norene if you could.

635

01:21:23.820 --> 01:21:29.010

Erik Grutzner: So I had, I had the opportunity to have a conversation with someone who I know in town, who.

636

01:21:30.240 --> 01:21:33.870

Erik Grutzner: has an adult son, a young man who's becoming an adult he has.

637

01:21:35.220 --> 01:21:48.150

Erik Grutzner: Some issues with with dealing with stressors and things like that, and there have been occasions where we've had to respond to the House and just sort of provide some some guidance and some assistance to the family, to restore things and.

638

01:21:49.170 --> 01:21:53.550

Erik Grutzner: PS Dave Cassandra and Aaron holly were both committed by name by this person.

639

01:21:55.020 --> 01:22:11.490

Erik Grutzner: As as coming being very empathetic very calm very reassuring to to the family and to this young man to sort of restore the the the the the peace in the home, so I thought that was something that was worth worthwhile for mentioning next.

640

01:22:13.980 --> 01:22:17.100

Erik Grutzner: And in addition we've been chatting with.

641

01:22:18.240 --> 01:22:20.580

Erik Grutzner: there's an elderly gentleman who lives alone and fox would.

642

01:22:22.620 --> 01:22:26.190

Erik Grutzner: I don't like to characterize people this way, but his nephew was the one who called him a shut him.

643

01:22:27.210 --> 01:22:35.910

Erik Grutzner: He struggles to to socialize and to be out in the Community, and we have had the opportunity and the need to respond to his home to assist him with.

644

01:22:36.480 --> 01:22:46.680

Erik Grutzner: You know slight medical or other needs that he has and his nephew has reached out on multiple occasions in the last six months, and just thanked us for.

645

01:22:47.370 --> 01:22:49.740

Erik Grutzner: For the way that we've handled those situations and.

646

01:22:50.640 --> 01:22:56.400

Erik Grutzner: And again, you know these are, these are the two that I brought up that this is, you know as i'm sure everyone is aware and.

647

01:22:56.700 --> 01:23:01.740

Erik Grutzner: People who follow this department now, these are not uncommon situations where we have people who are sending me emails or.

648

01:23:02.670 --> 01:23:15.660

Erik Grutzner: grabbing me on the street or talking to one of my one of the lieutenants and just or even just stopping in a headquarters and thanking people at the desk i'm very proud of our officers and and the way that that they handle these.

649

01:23:16.410 --> 01:23:20.610

Erik Grutzner: You know non criminal sort of sort of concerns in the Community.

650

01:23:22.020 --> 01:23:22.410

Next.

651

01:23:24.360 --> 01:23:27.810

Erik Grutzner: And that's kind of restated what I just said, so we can keep moving on.

652

01:23:29.790 --> 01:23:30.180

Erik Grutzner: So.

653

01:23:31.200 --> 01:23:39.810

Erik Grutzner: The numbers I just I quoted before we're for the patrol division obviously our detective division one detective sergeant two detectives.

654

01:23:41.010 --> 01:23:52.410

Erik Grutzner: We keep them very busy we'll talk a little bit about some of the challenges that we've seen in sort of the things that they've been they've been working on, we send all we send a detective to every on attend to death investigation.

655

01:23:53.580 --> 01:24:00.330

Erik Grutzner: Just to make sure that we investigated thoroughly until such time as we are confident that there is nothing more to investigate.

656

01:24:01.290 --> 01:24:17.550

Erik Grutzner: They were two detectives excuse me alone with the with patrol was on scene, for we did have a fatal opiate overdose a few weeks ago did a lot of investigation, a lot of interaction with the family, finding out the background finding out the history.

657

01:24:18.870 --> 01:24:23.760

Erik Grutzner: In a lot of ways, providing comfort to the family, because this particular case was.

658

01:24:28.140 --> 01:24:32.490

Erik Grutzner: Obviously any overdoses is devastating, but this particular case had some some.

659

01:24:33.780 --> 01:24:46.680

Erik Grutzner: Certain very sensitive undertones to it and the detectors really handled that well and interacted with the family and improved their situation and then one juvenile rest we We obviously don't advertise.

660

01:24:47.790 --> 01:24:51.840

Erik Grutzner: juvenile arrests and in that sense, but it is important to know that you know.

661

01:24:53.550 --> 01:25:09.210

Erik Grutzner: We have detectives and we have a staff that can sort of transfer back and forth between you know criminal investigations overdose investigations handling juveniles talking to kids so we go to the next slide they really do were all sorts of different hats.

662

01:25:10.800 --> 01:25:27.180

Erik Grutzner: In the Community our youth officers were at the middle school 16 times in the in the first quarter of this year, presenting on all manner of topics and not only presenting knowledge and and interacting with kids but also just building relationships.

663

01:25:28.290 --> 01:25:38.640

Erik Grutzner: and discussing with them that you know you sort of have i've had the privilege of being part of some of these presentations and and usually start with a lesson plan and.

664

01:25:39.330 --> 01:25:56.460

Erik Grutzner: Within a short amount of time you're onto something completely different that's Okay, because that's that the benefit of that is is obviously far far it's difficult to measure, so we did do a presentation to a boy scout troop we did it outside we did it at the gazebo.

665

01:25:58.530 --> 01:26:05.010

Erik Grutzner: Normally, that number would be much higher come this time of year, but again we're still trying to navigate sort of the covert aspects of.

666

01:26:05.460 --> 01:26:12.960

Erik Grutzner: interacting with with groups, you know we haven't done it we used to do preschool tours of the police department, we used to do all sorts of.

667

01:26:13.530 --> 01:26:22.290

Erik Grutzner: Of outreach in that way, and everything really has been kind of ground down to a halt, but we're looking forward to that, though, that work beginning up again.

668

01:26:24.780 --> 01:26:36.600

Erik Grutzner: And you know our youth officers are detectives regularly having interviews with parents with with youth kids who sort of come across our radar whether it's because there's an incident, whether it's because.

669

01:26:37.950 --> 01:26:45.210

Erik Grutzner: You know we're speaking to other members of the community who say hey this might be worth a conversation so really trying to.

670

01:26:47.370 --> 01:26:52.650

Erik Grutzner: You know, keep kids out of the system, keep kids from getting into trouble sort of give them every opportunity to.

671

01:26:54.120 --> 01:26:59.700

Erik Grutzner: To move forward in a positive way and usually it's very excuse me, is very successful.

672

01:27:01.740 --> 01:27:02.190

Erik Grutzner: Next.

673

01:27:04.710 --> 01:27:05.130

Erik Grutzner: So.

674

01:27:06.690 --> 01:27:18.510

Erik Grutzner: Again, for our staffing 93 hours divided amongst the three the three detectives who are in that office and that's anything from mostly investigation some work on discovery providing.

675

01:27:19.410 --> 01:27:31.080

Erik Grutzner: Whether it's phone recordings or digital evidence or anything else to the district attorney's office and in a very narrow timeframe, in order to maintain you know stay within on the discovery requirements.

676

01:27:32.160 --> 01:27:39.540

Erik Grutzner: Some training some selective enforcement and then you know we did have sergeant detective sergeant Garcia participate in one of the police reform.

677

01:27:41.280 --> 01:27:42.630

Erik Grutzner: One of the police reform panels.

678

01:27:43.860 --> 01:27:45.120

Erik Grutzner: So 93 hours.

679

01:27:46.440 --> 01:27:48.750

Erik Grutzner: Honestly it's a very small number.

680

01:27:50.220 --> 01:27:56.940

Erik Grutzner: For the amount of investigations and things that they've had to do, and a lot of that speaks to the officers themselves they're flexible with their schedules.

681

01:27:57.210 --> 01:28:03.810

Erik Grutzner: They will work around if they have an interview coming in at five they don't show up at seven in the morning and then make sure that they're going to get over time out of it, they.

682

01:28:04.890 --> 01:28:12.660

Erik Grutzner: You know they'll change their schedule and and and do what's needed to be done very fiscally responsible in there and I definitely appreciate that from them.

683

01:28:15.210 --> 01:28:34.440

Erik Grutzner: Next, please so training we have we've been involved in a great deal of training, this quarter we participated, for the first time

in the unified field, training and what that does is that provides the opportunity for our officers to get.

684

01:28:35.670 --> 01:28:44.760

Erik Grutzner: Up to date information in different areas, whether they be classroom issues legal updates.

685

01:28:45.900 --> 01:28:49.410

Erik Grutzner: Physical skills and abilities all sorts of things, so the, the most recent.

686

01:28:50.940 --> 01:29:04.680

Erik Grutzner: Unified training that we've participated in at the westchester county police academy included juvenile justice, domestic violence and use of force, so our officers, you know if we provided this training in house, we would be.

687

01:29:06.420 --> 01:29:11.280

Erik Grutzner: Getting one of our officers to become a subject matter expert in all of those topics.

688

01:29:12.180 --> 01:29:18.510

Erik Grutzner: And through a partnership with the westchester county police in westchester county police department is committed to partnering with the local agencies.

689

01:29:19.380 --> 01:29:27.030

Erik Grutzner: They have subject matter experts, whether they're assistant district attorneys whether they are staff was assigned to the Police Academy.

690

01:29:27.540 --> 01:29:40.200

Erik Grutzner: To provide that training for our officers and officers from departments around the county it's really it's a very forward thinking process that the county has undertaken and we're happy to be part of it.

691

01:29:41.850 --> 01:29:45.510

Erik Grutzner: In addition, we sent officer Smith to standard field sobriety testing.

692

01:29:47.010 --> 01:29:51.870

Erik Grutzner: What that is is basically if you pull over someone on the side of the road, there are ways.

693

01:29:53.070 --> 01:30:03.000

Erik Grutzner: You know, many times, you can tell if someone has been drinking very easily but for some people it's it's a little bit more difficult and it's a very scientific.

694

01:30:03.630 --> 01:30:14.790

Erik Grutzner: System of tests that we have as police officers at our disposal to test people for their impairment, and so we wanted to make sure that officer Smith, who hadn't received that training already was.

695

01:30:15.570 --> 01:30:24.750

Erik Grutzner: was able to conduct those tests and testify to the validity of his observations, so he went to that training class and we asked officer holly.

696

01:30:25.650 --> 01:30:34.350

Erik Grutzner: to become one of our field training officers, so we have a we have quite a few of six or seven field training officer is already on staff, but we enjoy the ability to.

697

01:30:36.030 --> 01:30:37.770

Erik Grutzner: Put officers with different.

698

01:30:39.150 --> 01:30:45.150

Erik Grutzner: field training officers, so they have the opportunity to hear from different officers different experiences different strengths.

699

01:30:45.870 --> 01:30:55.800

Erik Grutzner: So we thought that officer Hollywood be a good fit to have as one of our one of our group of trainers going forward so she participated in that field training officer course.

700

01:30:56.880 --> 01:31:06.480

Erik Grutzner: and is now ready to train either a new recruit coming out of the Academy or potentially a transfer who comes to this to this agency next, please.

701

01:31:08.700 --> 01:31:12.900

Erik Grutzner: So more training we sent a number of our officers to be trained.

702

01:31:13.470 --> 01:31:18.540

Erik Grutzner: To prepare for our launch or soon to be launch of the hope not handcuffs program or opioid diversion Program.

703

01:31:18.870 --> 01:31:26.490

Erik Grutzner: So all of our surgeons all of our administrators all of our detectives and a couple of our police officers are all trained to understand the Program.

704

01:31:27.300 --> 01:31:42.660

Erik Grutzner: A little bit on a deeper level for those of you who are not involved in this previously is is a diversionary program whereby people suffering from the an opioid use disorder can come to the police department, we put them in contact with a volunteer.

705

01:31:43.680 --> 01:31:48.870

Erik Grutzner: coordinator, who sends an angel they call them angels to the police department and.

706

01:31:50.340 --> 01:31:51.750

Erik Grutzner: The vast majority of cases on.

707

01:31:53.280 --> 01:31:58.020

Erik Grutzner: Almost every single time that person is immediately transported to.

708

01:31:59.160 --> 01:32:12.360

Erik Grutzner: To treatment, so we are partnering with a number of other agencies in the county to have this program launched, so we wanted to make sure that our officers had the opportunity to hear from the program themselves.

709

01:32:13.530 --> 01:32:24.090

Erik Grutzner: Exactly what was entailed what what the requirements would be what the program was what the program was not so we sent all of our supervisors and a few other people down to.

710

01:32:25.710 --> 01:32:37.740

Erik Grutzner: To participate in that training so we're looking forward to that launching in the very near future, and then we also send a group of officers down to civil unrest training so obviously.

711

01:32:39.930 --> 01:32:56.310

Erik Grutzner: You know the most, this is another topic, where we feel very strong requirements to be on the cutting edge, and this is, this is not just pleasantville this is throughout the county so westchester county again being a good partner, coordinated and set up.

712

01:32:57.420 --> 01:33:02.880

Erik Grutzner: Some civil unrest training, so we have officers now who are prepared to.

713

01:33:04.530 --> 01:33:20.490

Erik Grutzner: To be on on the ground, should there be civil unrest, obviously, in the wake of the verdict that we were expecting in from minneapolis there was a heightened sense of urgency, to make sure that this.

714

01:33:22.080 --> 01:33:23.430

Erik Grutzner: This was prepared to go.

715

01:33:25.050 --> 01:33:30.300

Erik Grutzner: You know the the response has been to that verdict has been very calm and very.

716

01:33:33.420 --> 01:33:40.020

Erik Grutzner: We haven't needed to use this training to use our officers for this, but there is now a.

717

01:33:40.530 --> 01:33:57.000

Erik Grutzner: large group of officers in municipalities throughout the county who are prepared to respond in the most appropriate and the least confrontational way possible, so we were we were happy to to participate and to send officers for that training.

718

01:33:58.110 --> 01:33:58.500

Erik Grutzner: Next.

719

01:34:00.960 --> 01:34:05.700

Erik Grutzner: Administrative Lee the administrative team, we did a couple different trainings this this quarter.

720

01:34:07.410 --> 01:34:19.380

Erik Grutzner: Procedural justice for law enforcement executives That was something that I, that I participated in john Mahler was one of the President and presenters, for that is the Commissioner the yonkers police department, who, many of you know.

721

01:34:20.850 --> 01:34:28.020

Erik Grutzner: And again, for those of you who weren't here procedural justice watering it way down but it basically speaks to.

722

01:34:30.060 --> 01:34:41.520

Erik Grutzner: letting people know that when they deal with law enforcement they're being heard they're being respected, that the outcomes aren't necessarily how people judge their interactions with law enforcement, it really is the process.

723

01:34:42.540 --> 01:34:43.530

Erik Grutzner: And so.

724

01:34:44.700 --> 01:34:53.730

Erik Grutzner: Creating that culture starting that training Those sort of executive level decisions, this was a webinar that that I was that I participated in.

725

01:34:54.090 --> 01:35:02.160

Erik Grutzner: To make sure that we were really sort of covering all our bases, as we move forward with procedural justice training which, which will be coming up shortly.

726

01:35:03.660 --> 01:35:17.940

Erik Grutzner: And then that civil unrest for police administrators, that was a two pronged course we the county trained at number of officers for how to handle the the on the on the ground response, but at the same time, they.

727

01:35:19.260 --> 01:35:25.080

Erik Grutzner: They provided training for police administrators and lieutenant woman went to that.

728

01:35:27.660 --> 01:35:32.760

Erik Grutzner: He participated in that training, I can tell you it's already paid dividends for us, so I know.

729

01:35:33.870 --> 01:35:43.350

Erik Grutzner: I believe I saw everyone at the at the rally down in the in the Plaza if you noticed I don't know if you paid attention or didn't but there were no uniformed officers.

730

01:35:44.640 --> 01:35:51.930

Erik Grutzner: In the in the area of that demonstration and that was an intentional decision that was a.

731

01:35:53.070 --> 01:36:07.560

Erik Grutzner: That was something that lieutenant woman brought back from this training, we did not feel that there was a need for uniform presence we didn't think that a uniform presence being there or not was going to make a difference, but we thought that the most.

732

01:36:08.910 --> 01:36:14.250

Erik Grutzner: You know our way forward is going to be that whenever possible.

733

01:36:15.570 --> 01:36:26.160

Erik Grutzner: You know we're going to approach with you know easier to go with golf shirts and khakis than having you know, a line of of uniformed officers there so.

734

01:36:26.940 --> 01:36:27.210

Erik Grutzner: That was.

735

01:36:27.750 --> 01:36:29.070

Erik Grutzner: Very i'm sorry.

736

01:36:29.670 --> 01:36:42.120

David Vinjamuri: It chief I just want to chime in there and say that I thought you guys did an outstanding job from the setup and you know sort of gently guiding cars, out of the area to.

737

01:36:42.930 --> 01:36:51.810

David Vinjamuri: People may not realize, who are watching this that there were several hundred people who showed up to this event and and you had.

738

01:36:52.230 --> 01:37:07.860

David Vinjamuri: To Congressman and and ultimately chuck schumer as well, so it was a serious matter, you know, to have your involvement there, and yet it felt very discreet, and there was no trouble at all so we're here, well done great.

739

01:37:07.920 --> 01:37:09.180

Erik Grutzner: Thank you very much appreciate it.

740

01:37:10.800 --> 01:37:14.340

W. Paul Alvarez: So set for my son running over 40 sorry about that.

741

01:37:14.700 --> 01:37:27.960

Erik Grutzner: He he he just he wasn't looking and I felt bad after that, because I think if I didn't have the mask on he would have seen that I

was joking, but when I say over my foot he looked at me like I was accusing him of actually having run over my foot so.

742

01:37:28.920 --> 01:37:31.980

W. Paul Alvarez: Because data you're going to help to help me get to jail.

743

01:37:34.410 --> 01:37:39.570

Erik Grutzner: Well, I apologize, but it was very nice to meet him in a sweet kid so.

744

01:37:44.910 --> 01:37:45.570

Erik Grutzner: You can go next.

745

01:37:50.160 --> 01:37:52.470

Erik Grutzner: So some upcoming training that we already have scheduled.

746

01:37:53.130 --> 01:38:01.710

Erik Grutzner: In the next quarter will be re qualifying with our will do twice a year we do farm so we'll be doing that, we have two officers who are rescheduled hopefully scheduled.

747

01:38:02.580 --> 01:38:15.660

Erik Grutzner: But we we've registered, for you know as the mayor said marijuana has now been legalized, and so one of the major challenges that I and and other chiefs in the area are concerned about is what happens when people who are.

748

01:38:16.380 --> 01:38:22.680

Erik Grutzner: consuming legal marijuana get behind the wheel, how do we enforce it, how do we know how do we fairly.

749

01:38:23.820 --> 01:38:24.780

Erik Grutzner: Keep people safe.

750

01:38:25.920 --> 01:38:40.890

Erik Grutzner: In this new in this new paradigm so we're going to have two officers are going to participate in that training we are constantly looking for opportunities for crisis intervention training for our officers, but it is difficult because the demand is so high.

751

01:38:42.870 --> 01:38:52.530

Erik Grutzner: We have trained sergeant burrows our generic for what to be our principal policing trainer so he will be available to start training our officers.

752

01:38:54.120 --> 01:38:55.830

Erik Grutzner: In that in that.

753

01:38:58.080 --> 01:38:58.830

Erik Grutzner: Sorry, my dog just.

754

01:39:00.930 --> 01:39:03.630

Erik Grutzner: distracted me so there'll be able to train.

755

01:39:05.730 --> 01:39:06.780

Erik Grutzner: train our officers.

756

01:39:07.410 --> 01:39:20.400

Erik Grutzner: Moving forward again we've started some online principal policing training, but we really do believe we are committed to making sure that the in person way is the way to go, and so we were lucky enough now that he's trained to be a trainer for people and then we're going to have.

757

01:39:21.900 --> 01:39:33.540

Erik Grutzner: We have the opportunity to participate in some tactical combat medicine things like tourniquets and and you know things that would be necessary in the case of a mass casualty incident.

758

01:39:34.650 --> 01:39:36.570

Erik Grutzner: You know, get our officers, obviously.

759

01:39:38.040 --> 01:39:41.040

Erik Grutzner: You know, we would never expect to have to use these things but.

760

01:39:42.210 --> 01:39:47.430

Erik Grutzner: we'd like our officers to be trained to be able to help themselves help other people.

761

01:39:48.840 --> 01:39:54.990

Erik Grutzner: And so we're excited about the all of these different training opportunities coming up in the next few months.

762

01:39:58.500 --> 01:40:07.080

Erik Grutzner: And now, these these are actually I don't want to discuss them too much because they're actually for the next meeting, but things that have happened already in April i'll just go over them quickly.

763

01:40:08.220 --> 01:40:11.940

Erik Grutzner: Myself an officer sal our special needs liaison officer participated in a.

764

01:40:13.710 --> 01:40:18.210

Erik Grutzner: Local law enforcement outreach autism outreach and awareness Program.

765

01:40:19.350 --> 01:40:21.210

Erik Grutzner: zoom meetings is very.

766

01:40:22.320 --> 01:40:35.640

Erik Grutzner: very helpful very encouraging to have our officers just today did some autism training for first responders and I participated in a panel discussion, a few weeks ago.

767

01:40:38.250 --> 01:40:46.680

Erik Grutzner: With a number of other chiefs lieutenants and and administrators from different six different police departments around the county everywhere from bronxville to peekskill.

768

01:40:47.340 --> 01:41:03.510

Erik Grutzner: To mamaroneck talking about talking with service providers, social workers about the police reform process, what our experience was what we wanted to accomplish how the process went and really speaking directly to.

769

01:41:04.170 --> 01:41:15.600

Erik Grutzner: How the changes in the system and the changes that we're facing would impact, social workers and these are partnerships that we we take very seriously and we're going to continue to cultivate.

770

01:41:16.380 --> 01:41:33.330

Erik Grutzner: So they were interested in finding out sort of how the process went along what they could expect what changes they might see it was a tremendous few hours of a discussion that we we spent, but again i'll spend more time on that in our in our second quarter update.

771

01:41:36.330 --> 01:41:45.900

Erik Grutzner: So our policies and procedures we have we decided a few a few months ago that it would be beneficial, we.

772

01:41:46.560 --> 01:42:00.900

Erik Grutzner: started participating in a platform, whereby all of our policies and procedures are online, so we made sure that we gave everyone the opportunity to go back in read reread re evaluate have any questions come forward with them.

773

01:42:01.980 --> 01:42:02.940

Erik Grutzner: Our entire policy and.

774

01:42:02.970 --> 01:42:04.020

Erik Grutzner: procedure manual we've.

775

01:42:04.020 --> 01:42:07.140

Erik Grutzner: completed that training we call it, training, but it's really just.

776

01:42:07.230 --> 01:42:08.430

Erik Grutzner: Re familiarization with our.

777

01:42:09.690 --> 01:42:10.800

Erik Grutzner: Our existing policies.

778

01:42:11.190 --> 01:42:13.860

Erik Grutzner: Obviously, we continue to review and.

779

01:42:15.360 --> 01:42:22.470

Erik Grutzner: And edit and change policies as necessary and then in this upcoming quarter we're going to commit to.

780

01:42:23.280 --> 01:42:42.540

Erik Grutzner: Coming to you in our next update with a suggestion as to our way forward, we do not believe that our current system is responsive we don't believe that it is sustainable, it is very much the information is out there and.

781

01:42:43.560 --> 01:42:51.900

Erik Grutzner: it's it's it's sort of the old way of doing things and so there are a number of new ways some of this we many of these things we talked about during the reform process.

782

01:42:53.430 --> 01:43:05.850

Erik Grutzner: And so, two of the options that are out there that are sort of the two major considerations are to attempt to become a New York state accredited agency, I will tell you that is both well both of these solutions are Labor intensive.

783

01:43:07.350 --> 01:43:08.190

Erik Grutzner: But they are.

784

01:43:10.230 --> 01:43:18.720

Erik Grutzner: In this day and age, they are really required, you know the backbone of our department is going to be our policies, how well we're trained on them how well we follow them and and how how good they are.

785

01:43:20.130 --> 01:43:34.440

Erik Grutzner: So we can go the accreditation route, which is a state procedure or potentially there is there are other companies that are out there that assist you in updating your policies, keeping your policies updated.

786

01:43:35.850 --> 01:43:41.910

Erik Grutzner: So we're going to we're going to do some research and come back with a recommendation at our next our next our next review.

787

01:43:43.650 --> 01:43:44.100

Erik Grutzner: Next.

788

01:43:47.730 --> 01:43:53.430

Erik Grutzner: And so just some issues and concerns some things that we've seen, we had a short breach, and we expect to have again.

789

01:43:55.800 --> 01:44:03.270

Erik Grutzner: we've talked about this, I believe, at other meetings in the past, we tend to have stolen vehicles in bunches and what it usually is is.

790

01:44:04.800 --> 01:44:06.720

Erik Grutzner: Many times there are people who come from out of state.

791

01:44:07.740 --> 01:44:26.790

Erik Grutzner: Usually there I call them kids they could be anywhere from 1516 years old anywhere up to 20 or 21 years old, most of the time it's for for joy, writing and things like that, but we'll end up having three or four vehicles potentially taken in one night, they will repeatedly.

792

01:44:29.220 --> 01:44:32.100

Erik Grutzner: work throughout westchester in different communities so.

793

01:44:33.300 --> 01:44:47.670

Erik Grutzner: um so we're we're seeing that that activity is starting to ramp up again, so we would definitely tell anyone here in the village, please lock your doors, the vast majority of these cases, if not all of the cases that we've had.

794

01:44:49.890 --> 01:44:59.220

Erik Grutzner: The keys were left in unlocked vehicles, so please lock your your car doors lock your vehicles keep valuables away from out of sight.

795

01:44:59.640 --> 01:45:08.910

Erik Grutzner: And don't leave the keys within the vehicles, so we had a number of those vehicles taken, and it is our policy that once they are recovered whether it's in in.

796

01:45:10.260 --> 01:45:20.820

Erik Grutzner: could be honestly, we had a few that were recovered in Connecticut will go and process them and make sure that we can we get any any evidence that we can from inside that vehicle in case it turns out that we need it.

797

01:45:21.930 --> 01:45:25.110

Erik Grutzner: In addition, many of you have probably heard on the news.

798

01:45:26.220 --> 01:45:32.670

Erik Grutzner: That there are waves of unemployment scams going on people having unemployment benefits files for.

799

01:45:34.590 --> 01:45:43.170

Erik Grutzner: under their name and so people don't find out about this until such time as they're contacted and said, you know your or your their their employers are contacted and.

800

01:45:43.560 --> 01:45:57.360

Erik Grutzner: And inquired about if this person has actually been employed, so we are doing our best to work with our law enforcement partners, the state and federal level, even to respond to this as best as possible, and we are seeing an uptick in our youth activity.

801

01:45:58.980 --> 01:46:15.840

Erik Grutzner: The weather's getting nicer, this is not uncommon so we, we expect to see the kids back out again like we talked about before usually that's very good sometimes it's not but we're well versed and understanding how our kids activate or act.

802

01:46:17.070 --> 01:46:18.360

Erik Grutzner: With each other in the Community.

803

01:46:19.710 --> 01:46:20.340

Next, please.

804

01:46:22.830 --> 01:46:30.270

Erik Grutzner: And then, just a few other sort of items that we're we're kind of working on and wrapping up, obviously, as I talked about before our new officers.

805

01:46:30.930 --> 01:46:38.820

Erik Grutzner: Who were sworn in a few weeks ago are in the midst of their field training they're doing extremely well they're very well like they're both very active they're both.

806

01:46:39.330 --> 01:46:49.320

Erik Grutzner: they're bringing their experience that they're bringing has been very beneficial we're very excited to have them on board and again very thankful to the board for the for the support and and making that happen.

807

01:46:51.480 --> 01:47:01.860

Erik Grutzner: patrol vehicle, something that we talked about probably over a year ago we've received one but between shipping and and backlogs and everything else it's it's.

808

01:47:02.370 --> 01:47:11.040

Erik Grutzner: been some time since our second vehicle has arrived, but we're expecting that vehicle to be here in the next few weeks and then again a project that we talked about.

809

01:47:11.940 --> 01:47:12.630

Creating.

810

01:47:13.650 --> 01:47:15.030

David Vinjamuri: Sorry cheaper yeah which.

811

01:47:15.300 --> 01:47:17.340

David Vinjamuri: Which vehicle you're getting in was.

812

01:47:17.520 --> 01:47:18.690

Erik Grutzner: The second explorer.

813

01:47:19.350 --> 01:47:21.030

David Vinjamuri: The hybrid explorer second.

814

01:47:21.420 --> 01:47:22.620

Erik Grutzner: Yes, yeah.

815

01:47:22.680 --> 01:47:23.010

Great.

816

01:47:24.600 --> 01:47:31.740

Erik Grutzner: And lastly, completing the upgrades to our training room in our locker room part of that is because we are excited about.

817

01:47:32.430 --> 01:47:40.020

Erik Grutzner: Making use of some space that has been under utilized in the past, and also because this will.

818

01:47:40.920 --> 01:47:51.990

Erik Grutzner: You know we've talked many times about the locker room situation, the flooding areas down there so we're going to we've we believe we remediated that we're going to replace all the all the things that need to be replaced.

819

01:47:52.350 --> 01:47:56.730

Erik Grutzner: And so we're excited for the lower level of our police department to.

820

01:47:57.930 --> 01:48:00.870

Erik Grutzner: to really get a new look and some good news.

821

01:48:02.460 --> 01:48:03.990

Erik Grutzner: Next, might be it.

822

01:48:06.180 --> 01:48:07.620

Noreen Regan: I believe that that chief that's it.

823

01:48:07.920 --> 01:48:08.400

So.

824

01:48:10.110 --> 01:48:25.020

Erik Grutzner: At this point, everything is trending in the right direction we'd like to we're excited about the increased activity level that we're going to see we're incredibly excited about things getting back to normal and just looking to remain responsive and responsible as we move forward.

825

01:48:26.640 --> 01:48:28.830

Peter Scherer: Thank you for that chief networks that was.

826

01:48:29.910 --> 01:48:42.420

Peter Scherer: Exactly what we hoped it would be in which we knew, you would deliver I think it's going to be a great thing, not only for the board, but for the Community, just to have an opportunity to sort of reconnect with a lot of the ideas we talked about during the.

827

01:48:43.470 --> 01:48:46.200

Peter Scherer: reform process but also just to have.

828

01:48:47.520 --> 01:49:05.130

Peter Scherer: A periodic check in on what's going on in the Community, and what you've told this is what we already knew, which is the pleasantville is a very safe place and well policed but stuff happens like your cars don't leave the case in them that sort of stuff.

829

01:49:06.990 --> 01:49:11.820

Peter Scherer: But really happy to see the focus on training, which obviously.

830

01:49:12.840 --> 01:49:16.560

Peter Scherer: is going to reap all kinds of benefits for all of us down the loving Brian so.

831

01:49:17.970 --> 01:49:26.100

Peter Scherer: Hoping that with the two new people on the force, as you suggested, will see those overtime numbers trick the next and nothing.

832

01:49:30.120 --> 01:49:31.740

Peter Scherer: Anybody have comments questions.

833

01:49:32.880 --> 01:49:39.900

W. Paul Alvarez: I saw the command chief for that work that you did with social workers, one of my friends, is the one who set up that Program.

834

01:49:40.410 --> 01:49:45.480

W. Paul Alvarez: And she was really impressed much as the professionalism of our department and you representing.

835

01:49:45.780 --> 01:49:53.040

W. Paul Alvarez: So I think that's always great when I represent our village and just doing such a great job, so I commend you for that, because they said that you were very.

836

01:49:53.370 --> 01:49:57.660

W. Paul Alvarez: open to answering questions and and I also discuss how you're very open when we did.

837

01:49:58.410 --> 01:50:04.410

W. Paul Alvarez: The forum in Spanish and English, which was great a lot of people in the village felt that that was a really great event.

838

01:50:04.770 --> 01:50:15.450

W. Paul Alvarez: So I thank you for being open to all these new suggestions and really being out there and representing us and putting us making us look good to appreciate a chief right, thank you, thank you, my pleasure.

839

01:50:19.440 --> 01:50:20.430

Michael Peppard: Thanks so much chief.

840

01:50:22.680 --> 01:50:32.790

Michael Peppard: I had to two small questions I think one was about the autism training and my question was whether that is something that's that you.

841

01:50:33.060 --> 01:50:39.480

Michael Peppard: plan to do already or that was in response to some of the discussions and recommendations from the police reform process.

842

01:50:40.080 --> 01:50:54.180

Michael Peppard: And then, my second question was about just kind of budgeting for these crossing guard overtime hours, I wonder, I mean Is there something like a substitute crossing guard phone tree, we might have you know.

843

01:50:54.180 --> 01:50:54.630

Nicole Asquith: For.

844

01:50:54.990 --> 01:51:07.800

Michael Peppard: You know, because i'm imagining that the just the I know it wasn't that many hours, but the cost of a police officer, for you know, for the work at the intersection of my craft where there's.

845

01:51:08.550 --> 01:51:15.840

Michael Peppard: Five kids crossing I mean that's where we walk and there's not many kids up there i'd imagine that a you know some kind of.

846

01:51:17.400 --> 01:51:21.420

Michael Peppard: I don't know I just just I wonder if we've done something like that, before.

847

01:51:21.900 --> 01:51:29.700

Erik Grutzner: yeah so we have we usually so we will hire any crossing guard, who is willing to come on board and go through the process.

848

01:51:30.210 --> 01:51:47.460

Erik Grutzner: If we don't have a permanent spot for them, then we will 100% put them on a on a fill in list, and then we contact them as necessary, whatever we can do, whenever we can get them ours and we will but it's it's a very um.

849

01:51:48.600 --> 01:51:56.610

Erik Grutzner: yeah I mean and some you know, honestly, what happened in this is, we lost a few of our crossing guards or some for short periods on for longer periods.

850

01:51:56.910 --> 01:52:08.700

Erik Grutzner: People had conflicts this happens in this, you know it's a very difficult position to really require to really get people to commit to it's an hour and a half in the morning it's an hour and a half in the afternoon with absolutely nothing in between.

851

01:52:09.960 --> 01:52:13.440

Erik Grutzner: So we do get whatever we can and get people to.

852

01:52:15.630 --> 01:52:21.420

Erik Grutzner: We do get people to hopefully we we offer them to fill in position and tell them as soon as it becomes.

853

01:52:22.860 --> 01:52:29.880

Erik Grutzner: As soon as a positive or a permanent position becomes available we'll go off our feelings, first and foremost as far as the autism training.

854

01:52:31.650 --> 01:52:39.540

Erik Grutzner: I did have the opportunity to have a couple side conversations with some members of the community who have concerns about.

855

01:52:40.710 --> 01:52:46.320

Erik Grutzner: are dealing with, especially people and young men and women of with special needs.

856

01:52:47.610 --> 01:52:49.080

Erik Grutzner: This was this was.

857

01:52:50.370 --> 01:52:54.180

Erik Grutzner: Honestly, much of our training is is is determined on what is available.

858

01:52:55.470 --> 01:52:59.160

Erik Grutzner: And this this training became available it's something that in this Community.

859

01:53:00.180 --> 01:53:04.200

Erik Grutzner: We are you know we weren't going to miss it because we know that it is, it is such a.

860

01:53:05.670 --> 01:53:08.250

Erik Grutzner: We have such a large community of people who are involved.

861

01:53:10.200 --> 01:53:13.170

Erik Grutzner: With those concerns and have those concerns so.

862

01:53:14.400 --> 01:53:21.120

Erik Grutzner: You know, it was kind of a little bit of both it was it was fortuitous that it came across and that we had the opportunity to send someone and at the same time.

863

01:53:22.440 --> 01:53:26.040

Erik Grutzner: You know this is, this is the kind of training that we're constantly on the lookout for so.

864

01:53:27.240 --> 01:53:40.200

Michael Peppard: Well that's great so you've reported back you reported back to the septa or other parents who are involved with that advocacy work or would you like us to do that, on your behalf, because I think there'll be thrilled to know that.

865

01:53:40.470 --> 01:53:43.710

Michael Peppard: Already there's been action on one of the items they wanted there to be action on.

866

01:53:44.130 --> 01:54:01.230

Erik Grutzner: Sure yeah I mean if anyone has the opportunity to put it out, where we are looking one of the things we're trying to do is is create a relationship with septa so that whether it's something like this, where either myself or we're officer cosell comes to a meeting or liaison with them.

867

01:54:03.120 --> 01:54:11.880

Erik Grutzner: You know any any way that we can get the word out absolutely we definitely have our contacts there but absolutely, the more the more the better great.

868

01:54:12.120 --> 01:54:13.650

Michael Peppard: i'm i'm happy to be a part of the.

869

01:54:14.130 --> 01:54:15.180

Erik Grutzner: Great Thank you.

870

01:54:17.310 --> 01:54:17.910

Michael Peppard: Thank you.

871

01:54:19.200 --> 01:54:20.400

Peter Scherer: All right, anybody else.

872

01:54:22.410 --> 01:54:22.920

Peter Scherer: All right.

873

01:54:24.270 --> 01:54:32.790

Peter Scherer: come to the public i'm not sure we have any member of the public to comment here, based on the participant list chief Thank you so much for this.

874

01:54:34.200 --> 01:54:44.430

Peter Scherer: And thank you for stealing a little bit of your second quarter thunder by letting us peek into April, because some good stuff going on there, so really, really appreciate it.

875

01:54:45.870 --> 01:54:49.560

Peter Scherer: will be working with you and the Board and the Community in the next month or so.

876

01:54:50.940 --> 01:55:02.460

Peter Scherer: Putting together the committee of folks that was envisioned in the police reform goals to assist with communication in both directions so.

877

01:55:03.660 --> 01:55:16.200

Peter Scherer: Anybody who is watching or watches this on tape will be looking for that, and if you're interested in participating in that you should definitely let one of us know or reach out to the trailer mercy, or nearly.

878

01:55:16.920 --> 01:55:21.240

Peter Scherer: As we start with that, together, but more on that soon, so thank you chief much appreciate.

879

01:55:21.690 --> 01:55:23.310

Erik Grutzner: It Thank you, thank you very much.

880

01:55:24.540 --> 01:55:25.950

Peter Scherer: Thank you, thank you and your dog.

881

01:55:26.460 --> 01:55:29.670

Peter Scherer: We didn't see the dog on screen, but I was hoping.

882

01:55:30.000 --> 01:55:32.340

Erik Grutzner: right next i'll bring him on next time I.

883

01:55:32.340 --> 01:55:32.940

Peter Scherer: promise all right.

884

01:55:34.980 --> 01:55:35.310

Peter Scherer: All right.

885

01:55:37.410 --> 01:55:41.430

Peter Scherer: Any other comments or questions before we go to the public hearing in the resolutions.

886

01:55:43.530 --> 01:55:58.530

Peter Scherer: All right, let her rip can I have a motion to open the public hearing an introductory look a lot to have 2021 amending chapter 173 Article seven, Section 68 of the village code partner restrictions on the street at the intersection of medford.

887

01:55:59.520 --> 01:56:00.180

Nicole Asquith: So moved.

888

01:56:00.660 --> 01:56:01.200

Second.

889

01:56:03.330 --> 01:56:04.110

Peter Scherer: All in favor.

890

01:56:04.920 --> 01:56:06.090

W. Paul Alvarez: Aye Aye.

891

01:56:07.230 --> 01:56:12.870

Peter Scherer: Welcome to the public hearing on this weighty subject I will share my screen.

892

01:56:15.750 --> 01:56:16.530

Peter Scherer: Can you see that.

893

01:56:20.160 --> 01:56:35.220

Peter Scherer: Yes, so So the issue here is this is Cooley street between subway and the art of wine, we currently have a sign that says no parking here to corner, and yet there is no parking here either because there's a fire hydrant.

894

01:56:36.030 --> 01:56:43.920

Peter Scherer: And people commented to me that that seems silly or confusing and Jeff took a look at it and.

895

01:56:45.330 --> 01:56:54.990

Peter Scherer: went back to the village code and determine that we need to amend chapter 173 in the manner that you see to.

896

01:56:56.790 --> 01:57:07.230

Peter Scherer: Establish no parking, it is a 51 feet, is that to the driveway from the intersection of Bedford road and Cooley so essentially this whole zone I got that right Jeff.

897

01:57:09.750 --> 01:57:11.370

Peter Scherer: Around there somewhere our Eric.

898

01:57:11.610 --> 01:57:17.580

Jeff Econom: Yes, you do Peter goes from the intersection of Bedford and Cooley back to the.

899

01:57:18.690 --> 01:57:20.280

Jeff Econom: entrance to the parking lot there.

900

01:57:20.940 --> 01:57:28.380

Peter Scherer: Okay, so just a minor correction looks like that introductory local I should read and measure the distance of 50 feet right.

901

01:57:30.030 --> 01:57:34.020

Peter Scherer: All right, any comments questions on this highly controversial matter.

902

01:57:36.240 --> 01:57:36.450

Peter Scherer: Is.

903

01:57:36.600 --> 01:57:37.020

Peter Scherer: emotion.

904

01:57:37.350 --> 01:57:46.140

Michael Peppard: Then what I noticed that a this that says irvington street earlier up on the document I don't think it matters because it's not what we're voting on, but.

905

01:57:47.760 --> 01:57:55.470

Peter Scherer: The alphabet, that is, that is, it, so it should also say Cooley, obviously, even though it does down here yeah.

906

01:57:56.430 --> 01:57:57.030

Eric Morrissey: Well, and then that.

907

01:57:58.170 --> 01:57:58.980

Jeff Econom: My mistake.

908

01:57:59.670 --> 01:58:00.480

Michael Peppard: friendly manner.

909

01:58:01.470 --> 01:58:07.290

Peter Scherer: All right, all right, thank you for that, is there a motion to close the public hearing.

910

01:58:10.320 --> 01:58:11.910

Peter Scherer: So moved second.

911

01:58:15.600 --> 01:58:16.140

Michael Peppard: hi.

912

01:58:16.350 --> 01:58:17.190

Peter Scherer: I motion.

913

01:58:18.000 --> 01:58:23.940

Peter Scherer: Motion approved all right to the resolutions number 81 Paul.

914

01:58:26.250 --> 01:58:27.930

Peter Scherer: hold on a minute there we go.

915

01:58:29.040 --> 01:58:29.730

Peter Scherer: All right.

916

01:58:30.300 --> 01:58:41.430

W. Paul Alvarez: resolves the board of trustees hereby approves the following management base salaries for fiscal year 2021 to 2022 paragraphs their police chief 180,281.

917

01:58:44.370 --> 01:58:58.020

W. Paul Alvarez: Definitely economy superintendent of Public Works 170 2687 mary's church treasurer hundred 67,612 Frederick morrissey administrator hundred and 38,009 75.

918

01:58:58.560 --> 01:59:15.060

W. Paul Alvarez: Robert Hughes building inspector 120 5000 marine Reagan administrative 117,000 594 at least shot deputy treasure 90,000 stephanie trim Austin court clerk at 8285.

919

01:59:18.540 --> 01:59:23.820

W. Paul Alvarez: Tony Eric coordinator of senior citizen services
\$78,045.

920

01:59:24.780 --> 01:59:25.590

Peter Scherer: Is there a second.

921

01:59:27.270 --> 01:59:27.720

David Vinjamuri: Second.

922

01:59:28.710 --> 01:59:34.680

Peter Scherer: comments or questions these reflect increases that we
discussed in work session in executive.

923

01:59:38.100 --> 01:59:38.910

Peter Scherer: All in favor.

924

01:59:39.540 --> 01:59:45.780

Peter Scherer: Aye Aye motion approved at to Nicole, you get the big one.

925

01:59:46.350 --> 01:59:46.830

Nicole Asquith: mm hmm.

926

01:59:48.150 --> 01:59:52.140

Nicole Asquith: Whereas the village administrator presented a tentative
budget for the fiscal year.

927

01:59:52.650 --> 02:00:08.760

Nicole Asquith: 2021 2022 and whereas a public hearing was duly held on
April 12 2021 before the board of trustees now, therefore, be it resolved
at the village of pleasant those 2021 2022 fiscal year budget is adopted
this follows general fund expenditures.

928

02:00:10.260 --> 02:00:29.430

Nicole Asquith: 16,000,540 \$4,899 special assessments \$7,738 omitted
taxes \$5,031 village wide tax levy 11,000,880 5700 i'm sorry \$460.

929

02:00:30.840 --> 02:00:51.840

Nicole Asquith: General fund non property tax revenues 4,107,000 \$670
general fund appropriated fund balance 530 \$9,000 assessed evaluation 121
million for 704,000 \$736.

930

02:00:54.330 --> 02:01:00.090

Nicole Asquith: Why am I seeing is terrible tax rate per thousand dollars assessed valuation is.

931

02:01:01.230 --> 02:01:19.440

Nicole Asquith: 97.658 to tax rate percent increase of point 89% and a tax levy increase of 1.93% and the budget in detail is attached to the resolution.

932

02:01:19.980 --> 02:01:20.940

Peter Scherer: There, a second.

933

02:01:21.600 --> 02:01:28.710

Peter Scherer: Second, so those who have watched over the last several months have seen the evolution of this.

934

02:01:29.970 --> 02:01:38.640

Peter Scherer: A couple of things to be said, one is, I think, certainly, all of us on the board, and all of us, the administration and I hope everyone in the Community.

935

02:01:39.390 --> 02:01:51.600

Peter Scherer: feels good that we are able to proceed to the next year coming out of this grim and difficult over a year, with a point eight 9% less than 1% tax increase.

936

02:01:51.960 --> 02:01:59.610

Peter Scherer: that's but for all in a year when I think lots of folks need as much relief, as they can get the second point I wanted to make is that.

937

02:02:00.780 --> 02:02:07.950

Peter Scherer: Although not reflected in the formal record, we could actually call this the honorary Barry Schwartz budget.

938

02:02:10.350 --> 02:02:11.160

Peter Scherer: Because.

939

02:02:12.720 --> 02:02:19.650

Peter Scherer: In case you hadn't noticed, she has had the temerity to suggest that she's going to retire, and therefore we will not be.

940

02:02:21.540 --> 02:02:22.290

Peter Scherer: Having her.

941

02:02:22.890 --> 02:02:34.710

Peter Scherer: When we adopt the next year budget, so I will have more to say on that at some point, but thank you, Mary, thank you for the able assistance over these many years, thank you haley Shah.

942

02:02:35.280 --> 02:02:51.000

Peter Scherer: delighted to have you on the finance team as deputy treasure and and thanks to Eric and Maureen who have steered this ship as well, and thanks to all of our department heads the only one present right now with Jeff but shout out to you Jeff because you're the guy here.

943

02:02:53.430 --> 02:02:55.320

Peter Scherer: comments or questions on the budget.

944

02:02:58.560 --> 02:03:00.540

Peter Scherer: we've asked them all, before all in favor.

945

02:03:01.470 --> 02:03:02.370

Nicole Asquith: Aye Aye.

946

02:03:02.790 --> 02:03:03.870

Peter Scherer: Motion approved.

947

02:03:05.880 --> 02:03:10.440

Peter Scherer: David number 83 having slow response to really come.

948

02:03:12.270 --> 02:03:25.800

David Vinjamuri: resolve the board of trustees hereby approves the refuse rates from fiscal year 2021 2022 as follows, REACH condominium unit \$360 and 50 cents of single family residence \$400 and 73 cents.

949

02:03:26.430 --> 02:03:36.300

David Vinjamuri: Dual family residence \$721 and 10 cents and a three family residence \$1,081 and 64 cents, with the schedule attach.

950

02:03:36.870 --> 02:03:37.650

Peter Scherer: Is there a second.

951

02:03:38.370 --> 02:03:42.180

Peter Scherer: Second, that reflects no change of the rates from last year.

952

02:03:44.070 --> 02:03:45.870

Peter Scherer: All comments questions.

953

02:03:46.080 --> 02:03:46.350

That.

954

02:03:48.210 --> 02:03:51.810

Eric Morrissey: It is a slight slight increase in the refuse free.

955

02:03:52.650 --> 02:03:53.640

Eric Morrissey: One family.

956

02:03:53.700 --> 02:03:56.310

Eric Morrissey: residence, for example, goes up \$1 45 cents.

957

02:03:58.320 --> 02:04:01.890

Peter Scherer: that's the lighting priests, thank you for correcting me on that sure.

958

02:04:04.080 --> 02:04:05.010

Peter Scherer: Comments questions.

959

02:04:06.120 --> 02:04:07.920

Peter Scherer: All in favor Aye.

960

02:04:09.360 --> 02:04:13.050

Peter Scherer: Motion approved Michael I don't know why you notice, we got.

961

02:04:15.840 --> 02:04:22.140

Michael Peppard: resolved at the board of trustees here by approves the following water rates for the fiscal year 2021 2022.

962

02:04:24.240 --> 02:04:40.500

Michael Peppard: You for residents \$64 and 74 cents per thousand cubic feet non residents in a district \$82 and 80 cents per thousand cubic feet non residents \$97 and 33 cents per 1000 cubic feet.

963

02:04:42.180 --> 02:04:51.360

Michael Peppard: Bulk sales at the residential rate plus nyc raw water across the cottage school residential rate less the nyc raw water costs.

964

02:04:53.010 --> 02:04:57.870

Michael Peppard: The ready to serve quarterly charges Okay, here we go.

965

02:04:57.930 --> 02:04:59.370

Peter Scherer: Again, probably.

966

02:05:00.090 --> 02:05:03.030

Peter Scherer: refer to these generally and say as further stated in the record to.

967

02:05:03.030 --> 02:05:05.460

Peter Scherer: avoid the storm of numbers that's fine.

968

02:05:05.970 --> 02:05:18.660

Michael Peppard: Okay um as further stated in the record the remedy serve quarterly charges, the sprinkler system quarterly charges and charges for types of unit dwellings.

969

02:05:19.950 --> 02:05:21.270

Peter Scherer: All right, is there a second.

970

02:05:22.290 --> 02:05:22.710

David Vinjamuri: Second.

971

02:05:24.210 --> 02:05:26.100

Peter Scherer: Eric no change in these right.

972

02:05:26.250 --> 02:05:28.800

Eric Morrissey: Change no change in the water right correct.

973

02:05:28.920 --> 02:05:30.840

Peter Scherer: All right, all in favor.

974

02:05:31.440 --> 02:05:37.350

Peter Scherer: Aye Aye motion approved at five back to you, Paul.

975

02:05:43.560 --> 02:05:43.890

W. Paul Alvarez: hey.

976

02:05:45.150 --> 02:05:50.310

W. Paul Alvarez: resolved at the board of trustees and according to the village law authorizes the village treasure to levy on.

977

02:05:50.310 --> 02:05:53.880

W. Paul Alvarez: Paid water rents, to the 2021 2022 tax roll.

978

02:05:54.960 --> 02:05:55.710

Peter Scherer: Is there a second.

979

02:05:56.910 --> 02:05:57.360

Michael Peppard: Second.

980

02:05:58.920 --> 02:05:59.940

Peter Scherer: simply means that if.

981

02:06:00.030 --> 02:06:00.540

Mary Schwartz: If you get.

982

02:06:00.990 --> 02:06:02.340

Peter Scherer: too far behind in your water.

983

02:06:02.370 --> 02:06:03.390

Peter Scherer: bill it gets.

984

02:06:05.070 --> 02:06:09.750

Peter Scherer: attached to the tax roll please keep up to date, possibly can all in favor.

985

02:06:10.920 --> 02:06:11.580

Peter Scherer: Aye.

986

02:06:11.670 --> 02:06:15.570

Peter Scherer: Motion approved Nicole six.

987

02:06:17.160 --> 02:06:24.120

Nicole Asquith: Is all did the board of trustees here by authorizes the America sign the text warrant for the fiscal fiscal year 2021 2022.

988

02:06:26.130 --> 02:06:28.260

Peter Scherer: A is there a second.

989

02:06:29.070 --> 02:06:34.260

Peter Scherer: Second, so we should modify that title within the resolution title.

990

02:06:34.710 --> 02:06:34.890

yeah.

991

02:06:36.240 --> 02:06:38.310

Peter Scherer: That should be 2021 2022.

992

02:06:40.290 --> 02:06:43.050

Peter Scherer: comments or questions call a favor.

993

02:06:43.590 --> 02:06:44.610

Peter Scherer: I hi.

994

02:06:44.670 --> 02:06:47.400

Peter Scherer: hi approved David.

995

02:06:51.210 --> 02:06:58.440

David Vinjamuri: resolve the board of trustees here by approves the master fee schedule with revisions as of October 26 2020 attached.

996

02:06:59.010 --> 02:06:59.670

Is there a second.

997

02:07:00.960 --> 02:07:01.350

Michael Peppard: Second.

998

02:07:02.010 --> 02:07:03.870

Peter Scherer: Derek you want to comment on changes.

999

02:07:05.400 --> 02:07:07.320

Eric Morrissey: The masterpiece schedule there there's.

1000

02:07:08.640 --> 02:07:13.320

Eric Morrissey: No change in the master feed schedule the last adjustments were made months ago.

1001

02:07:14.490 --> 02:07:15.390

Eric Morrissey: A water connection.

1002

02:07:15.510 --> 02:07:17.580

Peter Scherer: So we're simply adapting it for the New Year.

1003

02:07:17.970 --> 02:07:23.610

Noreen Regan: that's right yeah but it's but it's always best practice to do it because our water rates are in the masterpiece schedule.

1004

02:07:24.810 --> 02:07:28.290

Noreen Regan: As a matter of practice always have it in the same agenda when you dump a bunch of.

1005

02:07:28.650 --> 02:07:30.840

Peter Scherer: makes sense, all in favor.

1006

02:07:31.950 --> 02:07:32.430

David Vinjamuri: Aye.

1007

02:07:32.520 --> 02:07:36.330

Peter Scherer: Aye motion approved at eight back to you, Michael.

1008

02:07:41.790 --> 02:07:52.890

Michael Peppard: resolved that the board of trustees hereby accepts the municipal Sir separate storm sewer systems, Ms for annual report for the reporting period ending march 9 2021.

1009

02:07:53.430 --> 02:08:04.620

Michael Peppard: As prepared by the superintendent public works with public access, the report available on the village website at pleasantville dash ny.gov and attachments.

1010

02:08:05.580 --> 02:08:06.210

Their second.

1011

02:08:08.190 --> 02:08:08.550

Nicole Asquith: Okay.

1012

02:08:09.720 --> 02:08:27.210

Peter Scherer: So this is basically and Jeff will correct me if I get it wrong at the State requirements that we be on the case to try to minimize inflow and infiltration into the storm water system to protect against other stuff ending up in the storm water system and.

1013

02:08:29.100 --> 02:08:34.530

Peter Scherer: Cross pollination from sanitary sewers or like I got that right Jeff.

1014

02:08:35.220 --> 02:08:47.130

Jeff Econom: that's part of it, and then there's also with regards to stormwater management any swift that from any developments which we we have limited slips, but we have the two projects.

1015

02:08:47.820 --> 02:08:56.100

Jeff Econom: So we have to report, those in our annual cash base and clean in the likes what we do it's a rather lengthy document.

1016

02:08:58.050 --> 02:09:00.060

Peter Scherer: That it is any comments or questions.

1017

02:09:02.100 --> 02:09:02.910

Peter Scherer: All in favor.

1018

02:09:03.750 --> 02:09:07.680

Peter Scherer: Aye Aye motion approved at nine back to you, Paul.

1019

02:09:10.110 --> 02:09:19.500

W. Paul Alvarez: resolved the board of trustees here right points Lisa don't see as the title intermediate accounting clerk part time available job title that's supposed to be Lisa.

1020

02:09:21.360 --> 02:09:22.020

W. Paul Alvarez: There right.

1021

02:09:23.640 --> 02:09:23.760

Nicole Asquith: You.

1022

02:09:23.940 --> 02:09:26.700

Noreen Regan: know her her legal name is Lisa.

1023

02:09:27.390 --> 02:09:28.620

W. Paul Alvarez: Oh gotcha okay.

1024

02:09:29.070 --> 02:09:30.900

W. Paul Alvarez: Is it those has a title intermediate.

1025

02:09:30.900 --> 02:09:36.330

W. Paul Alvarez: Account or part time available job title 187 effective March.

1026

02:09:37.980 --> 02:09:50.460

W. Paul Alvarez: 99 2021 at the rate of \$20 per hour set appointment is subject to a progress toward promotion period and a minimum of 12 weeks and can be extended to a maximum not to exceed 52 weeks.

1027

02:09:51.480 --> 02:09:52.140

Peter Scherer: Their second.

1028

02:09:53.820 --> 02:09:54.270

Nicole Asquith: Second.

1029

02:09:56.310 --> 02:10:15.600

Eric Morrissey: character sure, so we are the cheapest conducting a search for a part time replacement for Lisa has been a long time for time employee in the police department she's recently retired but it's coming back one day per week for five hours, until we can bridge the gap in the new hire.

1030

02:10:17.460 --> 02:10:26.160

Peter Scherer: All right, good news appreciate that we've we've dragged around have a very short retirement at least one day a week all in favor.

1031

02:10:27.210 --> 02:10:27.510

Nicole Asquith: Aye.

1032

02:10:28.260 --> 02:10:31.440

Peter Scherer: Aye motion to approve Nicole number nine be.

1033

02:10:33.150 --> 02:10:45.360

Nicole Asquith: If it ever appears there we go resolve that the board of trustees here by authorizes the deactivation of school crossing guard Daniel Shay with effective last date worked march 13 2020.

1034

02:10:46.440 --> 02:10:47.100

Peter Scherer: Is there a second.

1035

02:10:49.770 --> 02:10:50.550

Peter Scherer: Call all in favor.

1036

02:10:51.360 --> 02:10:52.500

W. Paul Alvarez: hi hi.

1037

02:10:53.850 --> 02:10:55.890

David Vinjamuri: petition, something you could do to a person.

1038

02:10:58.080 --> 02:11:02.580

Eric Morrissey: They they didn't submit a letter of resignation.

1039

02:11:02.580 --> 02:11:04.530

David Vinjamuri: So right right we talked about the songs.

1040

02:11:05.040 --> 02:11:09.540

Noreen Regan: And we are kept number wise with the county for number of school crossing guard.

1041

02:11:10.260 --> 02:11:11.280

Noreen Regan: know, we need to.

1042

02:11:11.280 --> 02:11:13.380

Noreen Regan: free up those spots to have some more subs.

1043

02:11:14.130 --> 02:11:14.490

Okay.

1044

02:11:16.200 --> 02:11:21.000

Peter Scherer: All right, 91 David coming.

1045

02:11:22.080 --> 02:11:23.340

Peter Scherer: alive on the screen real.

1046

02:11:24.720 --> 02:11:36.360

David Vinjamuri: there's all the board of trustees hereby accepted donation amount of 2650 for summer camp scholarships from Ali Lisa woods and Robin gundy.

1047

02:11:37.920 --> 02:11:38.730

Peter Scherer: Is there a second.

1048

02:11:39.540 --> 02:11:40.410

Nicole Asquith: Second okay.

1049

02:11:40.650 --> 02:11:47.940

Peter Scherer: So alley and Robin where the people that put together, I think a gofundme campaign if I got that right David that's correct.

1050

02:11:47.970 --> 02:12:04.860

Peter Scherer: yeah so so this \$2,650 reflects a contributions from a bunch of folks who contributed to that, so thank you to Ali and to Robin for having spearheaded that effort and produce this great support for summer camp camp scholarships.

1051

02:12:05.940 --> 02:12:06.570

Peter Scherer: All in favor.

1052

02:12:07.290 --> 02:12:08.400

David Vinjamuri: Aye Aye.

1053

02:12:08.580 --> 02:12:09.180

Aye.

1054

02:12:11.250 --> 02:12:16.140

Peter Scherer: approved Michael 92 inching forward they're.

1055

02:12:17.100 --> 02:12:22.800

Michael Peppard: resolved at the board of trustees hereby approve the Minutes of the regular meeting held on April 12 2021.

1056

02:12:23.970 --> 02:12:24.720

Peter Scherer: Is their second.

1057

02:12:25.740 --> 02:12:26.190

Nicole Asquith: Second.

1058

02:12:29.640 --> 02:12:32.730

Peter Scherer: reminding folks a happy event was the hiring of.

1059

02:12:34.770 --> 02:12:42.210

Peter Scherer: don't know Charles and Gustavo previous two new police officers in the village pleasantville comments, a corrections on the Minutes.

1060

02:12:43.680 --> 02:12:44.700

Peter Scherer: All in favor.

1061

02:12:45.780 --> 02:12:46.200

David Vinjamuri: Aye.

1062

02:12:46.380 --> 02:12:50.070

Peter Scherer: Aye motion approved back to you, Paul Alvarez.

1063

02:12:55.020 --> 02:13:00.840

W. Paul Alvarez: result resolve that the board of trustees gateway approves the following budget amendments for fiscal year 2021.

1064

02:13:03.900 --> 02:13:06.570

W. Paul Alvarez: As listed below the budget transfers general one.

1065

02:13:07.770 --> 02:13:21.420

W. Paul Alvarez: 2 million point from the contingent to the village whole fuel natural gas, water fund 2 million at three going from a contingent account to the water on allocated insurance \$170.

1066

02:13:22.080 --> 02:13:35.040

W. Paul Alvarez: into account to the water transmission light paths Internet and email for a total of \$2,253 and the refuse fund \$163 going from contingent account.

1067

02:13:37.920 --> 02:13:42.360

Peter Scherer: To the refuse and allocated insurance account is there a second.

1068

02:13:44.010 --> 02:13:49.530

Peter Scherer: Second comments or questions as we square up these accounts for the current fiscal year.

1069

02:13:50.910 --> 02:13:51.630

Peter Scherer: All in favor.

1070

02:13:52.470 --> 02:13:56.670

Peter Scherer: Aye Aye motion to approve Nicole 94.

1071

02:13:57.750 --> 02:14:12.030

Nicole Asquith: exalted the board of trustees here by approves the abstract for payment of claims dated April 26 2021 for fiscal year ending 2021 covering check numbers 1000462100150.

1072

02:14:12.660 --> 02:14:36.300

Nicole Asquith: And the general fund 3300 and \$7,571 and 52 cents in the water fund \$48,793 and 66 cents in the refuse refuse fund \$29,063 and 52 cents for a total of 380 \$5,428 and 70 cents.

1073

02:14:36.990 --> 02:14:37.740

Peter Scherer: Is there a second.

1074

02:14:39.840 --> 02:14:45.420

Peter Scherer: As there's always the case, you can click into the payment of claims and see every line item comments questions corrections.

1075

02:14:48.210 --> 02:14:48.930

Peter Scherer: All in favor.

1076

02:14:49.440 --> 02:14:52.860

Peter Scherer: Aye Aye motion to approve David 95.

1077

02:14:54.330 --> 02:15:05.430

David Vinjamuri: resolve our trustees here by one Min of Raymond meaner, to the title of quarter tend to drop code 0051 at the rate of \$20 per hour effective April 27 2021.

1078

02:15:06.150 --> 02:15:06.960

Peter Scherer: Is there a second.

1079

02:15:08.550 --> 02:15:09.000

Nicole Asquith: Second.

1080

02:15:09.510 --> 02:15:10.650

Peter Scherer: Comments questions.

1081

02:15:11.760 --> 02:15:19.980

Peter Scherer: All in favor Aye Aye motion approved Michael 96.

1082

02:15:20.760 --> 02:15:28.770

Michael Peppard: resolved that the board of trustees here by authorizes the village clerk to advertise for bids to purchase lights and supplies for memorial Plaza.

1083

02:15:29.490 --> 02:15:30.120

Peter Scherer: Is their second.

1084

02:15:31.590 --> 02:15:32.010

David Vinjamuri: Second.

1085

02:15:32.730 --> 02:15:39.660

Peter Scherer: So those are watched our work session last time or the time before that will know that Jeff a condom has.

1086

02:15:41.430 --> 02:15:58.230

Peter Scherer: worked out design for the section of Memorial Plaza between the gazebo and Bedford road that will reduce the width of the median and set us up to have angled parking on the public side with.

1087

02:15:59.400 --> 02:16:09.930

Peter Scherer: Essentially, no change on the on the computer side and Jeff has worked out plan to provide new condo and new lighting and we seek to buy.

1088

02:16:10.380 --> 02:16:20.820

Peter Scherer: New light Poles, that would reflect the design that was envisioned for the other end of the Plaza and the proposed civic space that's what this is all about.

1089

02:16:21.360 --> 02:16:22.050

Nicole Asquith: sounds good.

1090

02:16:23.430 --> 02:16:25.650

Peter Scherer: If I got that fairly reported.

1091

02:16:26.790 --> 02:16:28.500

Jeff Econom: Yes, you do okay.

1092

02:16:29.610 --> 02:16:37.440

Peter Scherer: shout out to Jeff for his engineering CAD skills and all around good help all in favor.

1093

02:16:38.100 --> 02:16:44.100

Peter Scherer: Aye motion to approve 97 he is back to you, Paul.

1094

02:16:52.770 --> 02:16:55.410

Peter Scherer: he's lost his last week last Paul.

1095

02:16:55.740 --> 02:16:56.100

Paul.

1096

02:16:58.500 --> 02:17:00.720

Peter Scherer: All right, to you, Nicole.

1097

02:17:00.990 --> 02:17:12.840

Nicole Asquith: All right, resolved at the board of trustees here by authorizes the village clerk to advertise for bids to purchase a mean green 74 inch TV commercial lawn mower Oh, this is a good one for me to read.

1098

02:17:13.140 --> 02:17:13.620

Peter Scherer: let's go say.

1099

02:17:14.100 --> 02:17:15.090

Peter Scherer: Is there's a.

1100

02:17:16.740 --> 02:17:17.040

Michael Peppard: Second.

1101

02:17:17.700 --> 02:17:24.720

Peter Scherer: So there's been some discussion about replacing the more and whether we can do it with an electric one or need to guess one.

1102

02:17:26.220 --> 02:17:30.840

Peter Scherer: Lots of opinions on all sides, but we're going to take a shot at the electric one.

1103

02:17:31.170 --> 02:17:42.510

Nicole Asquith: Well, and shout out to sustainable West Chester because I reached out to them and they're the ones that suggested this particular brand which has the right size that the REC department that the parks needed.

1104

02:17:43.140 --> 02:17:48.390

David Vinjamuri: I said I said he'd only take one if it was label, you know brandon mean green.

1105

02:17:49.920 --> 02:17:51.720

Nicole Asquith: Well, you can't argue against that either.

1106

02:17:53.130 --> 02:17:54.180

Peter Scherer: All right, all in favor.

1107

02:17:54.570 --> 02:18:00.630

Peter Scherer: Aye Aye Aye back to Paul will go backwards, here we lost you in an Internet hiccup you have 98.

1108

02:18:02.970 --> 02:18:04.710

W. Paul Alvarez: The work is done by Arthur.

1109

02:18:06.330 --> 02:18:08.430

W. Paul Alvarez: Ashe for replacing have to exist.

1110

02:18:09.570 --> 02:18:14.880

W. Paul Alvarez: In vc systems and walking freezer condensing units at the Clinton streets in your sister.

1111

02:18:15.780 --> 02:18:16.530

Peter Scherer: Is there a second.

1112

02:18:18.900 --> 02:18:22.350

Peter Scherer: Self explanatory I think comments questions.

1113

02:18:23.430 --> 02:18:30.180

Peter Scherer: All in favor and hi David back in order and 99 to.

1114

02:18:31.920 --> 02:18:46.530

David Vinjamuri: resolve that Board of Trustees hear about versus the village industry to sign the agreement on song to renew code resolution June 20 June 1 2021 to may 31 2022 per fee of \$4,781.

1115

02:18:47.850 --> 02:18:48.480

Peter Scherer: There, a second.

1116

02:18:50.160 --> 02:18:50.640

Nicole Asquith: That good.

1117

02:18:51.420 --> 02:19:02.610

Peter Scherer: So just like insurance policy we hope not to need this, but I think it's worth having co grid being a mechanism by which we can reach out to folks in the Community by text by phone by email.

1118

02:19:04.410 --> 02:19:14.340

Peter Scherer: In the event of an emergency, we encourage you to sign up at position why that govern the left hand column, you can sign up on your own behalf, or if.

1119

02:19:15.090 --> 02:19:25.920

Peter Scherer: family members want to keep an eye on what's going on in pleasantville in the potential emergency they can sign up on behalf of their family member resident all in favor Aye.

1120

02:19:26.100 --> 02:19:31.560

Peter Scherer: Aye motion approved 100 Michael.

1121

02:19:35.520 --> 02:19:49.590

Michael Peppard: resolved at the board of trustees here by authorizes the village administrator to sign the agreement with BF J planning to conduct an analysis of manville road bed road campus drive properties for a fee of \$7,500.

1122

02:19:50.580 --> 02:19:51.480

Peter Scherer: Is their second.

1123

02:19:51.960 --> 02:19:52.380

Peter Scherer: Second.

1124

02:19:53.130 --> 02:20:01.770

Peter Scherer: yep js is the planning firm we've used for a number of significant figures, including our master plan, update and this will give us a.

1125

02:20:02.910 --> 02:20:03.630

Peter Scherer: sense of.

1126

02:20:04.770 --> 02:20:07.800

Peter Scherer: The lay of the land, so to speak, in the old village all in favor.

1127

02:20:08.370 --> 02:20:09.360

Peter Scherer: Aye Aye.

1128

02:20:09.780 --> 02:20:12.900

Peter Scherer: Motion approved back to you, Paul one on one.

1129

02:20:18.480 --> 02:20:31.560

W. Paul Alvarez: Whereas resolution 2021 consider the adapt to the local law to 2021 which one passage some local Ria anyone parking on Cooley street.

1130

02:20:32.190 --> 02:20:50.370

W. Paul Alvarez: Whereas introductory local law to have 2021 has been introduced to amend chapter 173 Article seven, Section 6060 of the quarter the village of puzzle concerning partner who is tree and whereas hearing concerning introductory law local to have.

1131

02:20:51.630 --> 02:21:02.250

W. Paul Alvarez: All the clothes 26 2021 now therefore be resolved before trustees of the village puzzle here by adopts local law degree of 2021.

1132

02:21:03.390 --> 02:21:04.080

Peter Scherer: There, a second.

1133

02:21:05.130 --> 02:21:07.800

Peter Scherer: Second, so this local three or two.

1134

02:21:08.700 --> 02:21:16.770

Eric Morrissey: It is introductory local have to but introductory it's local or three for that, for the year.

1135

02:21:17.310 --> 02:21:17.790

Peter Scherer: Okay.

1136

02:21:18.330 --> 02:21:20.970

Eric Morrissey: yeah we did tax CAP and irvington.

1137

02:21:22.620 --> 02:21:29.730

Peter Scherer: uh huh okay comments questions, this is the exciting a matter between the art of wine and subway.

1138

02:21:30.210 --> 02:21:31.200

Peter Scherer: All in favor.

1139

02:21:31.710 --> 02:21:34.110

Peter Scherer: Aye Aye motion approved.

1140

02:21:35.130 --> 02:21:41.550

Peter Scherer: We have two items added to the agenda late breaking one of them is one or two and Nicole.

1141

02:21:42.330 --> 02:21:58.050

Nicole Asquith: resolved that the board of trustees here by approves the request from Sarah and calling Higgins 107 sorrows lane to hold a block party in there by close Congress street between sorrows lane and pleasant avenue on Saturday may 22 2021 from 2pm to 9pm.

1142

02:21:59.610 --> 02:22:01.470

Nicole Asquith: Their second sign of optimism.

1143

02:22:03.570 --> 02:22:04.290

Peter Scherer: Is there a second.

1144

02:22:06.660 --> 02:22:07.260

Peter Scherer: All in favor.

1145

02:22:08.040 --> 02:22:08.910

David Vinjamuri: Aye Aye.

1146

02:22:09.000 --> 02:22:11.100

Peter Scherer: Aye motion approved.

1147

02:22:12.390 --> 02:22:17.700

Peter Scherer: And then the last of our agenda items David 103.

1148

02:22:18.780 --> 02:22:25.170

David Vinjamuri: is on the board of trustees here by approval request to close the entire parking lot more positive for the pleasantville farmers market.

1149

02:22:25.470 --> 02:22:41.370

David Vinjamuri: And pleasantville garden clubs annual plan sale operations on Saturday may 2021 from 12pm to 2pm further resolved police departments here right off where I suppose no parking signs and to all vehicles in violation of this temporary parking restriction.

1150

02:22:42.330 --> 02:22:43.020

Peter Scherer: Is there a second.

1151

02:22:44.400 --> 02:22:46.500

Peter Scherer: Okay, so the issue here is that.

1152

02:22:47.730 --> 02:22:55.920

Peter Scherer: once a year in the spring, when the garden club has the annual plant sale, which is a very popular event it coincides with the farm market there's some synergy between the two, but.

1153

02:22:56.520 --> 02:23:14.190

Peter Scherer: Also, some extra crowds of the point of this is to avoid overnight parking so that, on the computer side the farm market in garden club will have control of that locker for their own customers that right Eric.

1154

02:23:14.460 --> 02:23:15.060

Correct.

1155

02:23:16.200 --> 02:23:17.130

Peter Scherer: Comments questions.

1156

02:23:21.150 --> 02:23:21.900

Peter Scherer: All in favor.

1157

02:23:22.950 --> 02:23:23.220

Nicole Asquith: Aye.

1158

02:23:23.550 --> 02:23:24.000

Aye.

1159

02:23:25.020 --> 02:23:27.300

Peter Scherer: we've gotten our way through a long list of resolutions.

1160

02:23:28.620 --> 02:23:29.970

Peter Scherer: Our next effort.

1161

02:23:31.050 --> 02:23:31.560

Peter Scherer: Is.

1162

02:23:32.670 --> 02:23:38.370

Peter Scherer: Can I have a motion to leave the regular session going to an executive session on matters of personnel.

1163

02:23:39.690 --> 02:23:40.170

David Vinjamuri: them.

1164

02:23:41.250 --> 02:23:42.060
Peter Scherer: Is there a second.

1165
02:23:42.780 --> 02:23:43.260
Second.

1166
02:23:44.670 --> 02:23:45.660
Peter Scherer: All in favor.

1167
02:23:46.650 --> 02:23:47.370
Nicole Asquith: Aye Aye.

1168
02:23:47.490 --> 02:24:04.980
Peter Scherer: Aye motion to approve Thank you all, if For those of you who stuck with us, or those who watch later and PC TV 76 dot org as reported our next work session radio me is the second Monday in May, which is Monday may 10.

1169
02:24:06.360 --> 02:24:07.680
Peter Scherer: Thank you all for the.

1170
02:24:09.840 --> 02:24:14.010
Peter Scherer: successful conclusion of the budget season, and thank you, Mary for.

1171
02:24:14.220 --> 02:24:19.230
Peter Scherer: For your good work on this and over how many is it 16 years.

1172
02:24:19.860 --> 02:24:23.580
Mary Schwartz: yeah coming up on 17 if I were staying till August yeah.

1173
02:24:25.050 --> 02:24:25.770
Peter Scherer: Well, you could.

1174
02:24:28.500 --> 02:24:32.970
Peter Scherer: share with me the possibility that she might swim with hammerhead sharks, which is.

1175
02:24:33.510 --> 02:24:38.460
Peter Scherer: One of those things that we're happy to have our retirees do, but not our employees.

1176

02:24:39.690 --> 02:24:40.500

David Vinjamuri: it's like a you from.

1177

02:24:41.070 --> 02:24:42.690

working for other governments.

1178

02:24:44.400 --> 02:24:50.790

Peter Scherer: All right, good night all thank you board members sign in
Eric did you send the.

1179

02:24:50.910 --> 02:24:52.830

Eric Morrissey: I did, I sent it a couple minutes ago.

1180

02:24:53.310 --> 02:24:58.530

Peter Scherer: Okay, great so check your email for the login for the
executive session Thank you all and good night.

1181

02:24:59.310 --> 02:25:00.270

Peter Scherer: And I will be.

1182

02:25:01.650 --> 02:25:02.880

Nicole Asquith: I sisters.
