

We were asked to provide a layout and fixture recommendation for a building located at 444 Bedford in Pleasantville, NY.

Page 1- The average foot candle is around 1-5 foot-candles depending on the location, with the proposed fixture, the average fc will be 5.06 Data from the IES(Illumination Engineering Society)

Page 2-Blue and yellow create a vibrant contrast, while red adds a warm accent, often used to highlight specific areas or create a dynamic visual. The white symbols on the building show uniformity with the Up/DN cylinder fixtures we selected. These symbols are also shown on page 3

The proposed ALS WSA Wall Mount Cylinder is 20 watts with an output of 2000 lumens the fixture has selectable color temperature of 3000K, 4000K and 5000K and field selectable power- 10w, 15w and 20w
